# Explanatory notes to Table C2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

The 'standard classification' refers to a modified Government Finance Statistics (GFS) reporting structure. The aim of the standard classification approach is to ensure that all municipalities report their operations in one common format, to facilitate comparison across all municipalities. It is to be noted that the revenue by vote as reflected in this table, includes revenue attributable to capital grants.

## Explanatory notes to Table C3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

The purpose of the format in which the monthly budget reporting table is presented, is to enable the Council to enforce a vote in accordance with the municipality's organisational structure, so as to assign responsibility for the revenue and expenditure recorded against these votes to the Municipal Manager and Executive Directors concerned. Operating revenue and expenditure is thus presented by 'vote'. A 'vote' is defined as one of the main segments into which a budget of a municipality is divided into, for the appropriation of funds.

## Explanatory notes to Table C4 - Budgeted Financial Performance (revenue and expenditure)

The Financial Performance Budget is required to be approved concurrently by revenue source and expenditure type, so as to ensure consistency with annual reporting format requirements. A key aim is to facilitate comparison between the monthly results, the monthly budget-to-date projections and the original budget, so as to assess performance.

### **Explanatory notes to Table C6 - Budgeted Financial Position**

- 1. The table presents Assets less Liabilities as Community Wealth. The order of items within each group is also aligned to the convention of showing items in order of liquidity; i.e. assets readily converted to cash or liabilities immediately required to be met from cash appear first.
- 2. Any movement on the Budgeted Financial Performance or the Capital Budget will invariably impact on the Budgeted Financial Position. For example, the collection rate assumption will impact on the cash position of the municipality and consequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption informs the budget provision for debt impairment, which in turn impacts on the provision for bad debts. These budget and planning assumptions

form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is directly informed by forecasting the statement of financial position.

### **Explanatory notes to Table C7 - Budgeted Cash Flow Statement**

- 1. The budgeted cash flow statement represents the first measurement in determining whether the budget is funded.
- 2. It reflects the expected cash in-flows versus cash outflows that are likely to result from the implementation of the budget.
