

Subsequent to the approval of the Green Procurement Implementation Strategy by the Nelson Mandela Bay Municipality (NMBM) Council in November 2011, the Public Health Directorate (Environmental Management Sub-Directorate) has commissioned a Green Product Piloting Exercise which will entail the development of specifications/datasheets for several products currently procured by the NMBM. This will be the first phase in terms of the development of green product specifications/datasheets.

Please complete the datasheet below with as much detail as possible

Locality:

Product name

Product trade names

Physical Address:

Please indicate whether you manufacture or distribute/supply the product

Manufacture	Distribute/Supply

Please indicate where the product is manufactured

Within the NMBM	Within 150km of the NMBM	Within the Eastern Cape	Within South Africa	International	

Is the product distributed from a centre within the NMBM?

Yes	No

The information required below can be obtained from the manufacturer and the Material Safety Data Sheets of the product.

Product Compostion/Information on Components/Ingredients (including packaging)

* Each component must consist of one material/element. (e.g. if as part made from different materials each component of that part should be listed seperately)

Component/Ingredient Name	Percentage of product	Indicate Source of Component/Ingredient				
		Within the NMBM	Within 150km of the NMBM	Within the Eastern Cape	Within South Africa	International

**Please print as many pages as necessary to complete the table

What is the intended use of the product ?

Please describe the environmental outcomes related to the use of the product.

Please describe the environmental toxicity related to the use of this product.

Please describe the environmental outcomes related to the disposal of the product.

Please describe the environmental toxicity related to the disposal of this product.

Is this product recyclable?

Yes	No	N/A
-----	----	-----

If Yes, please provide the percentage of the product that is recyclable.

 %

If N/A, please explain why this is the case (e.g. entire product is used)

Is the packaging of the product recyclable?

Yes	No	N/A
-----	----	-----

If Yes, please provide the percentage of the packaging that is recyclable.

 %

If N/A, please explain why this is the case (e.g. there is no packaging)

Please list the environmental certifications this product has obtained.
