Infrastructure & Engineering

TENDER SPECIFICATIONS FOR THE SERVICE AND MAINTENANCE OF TURBIDIMETER, SPECTROPHOTOMETER, COLORIMETER, MULTI METER AND REACTORS. *CLOSED TENDER – ONCE OFF*

General Requirements

- The service will be done on the following equipment:
 - DR6000 Spectrophotometer
 - HQ440D Multimeter
 - DRB200 Reactors
 - Turbidimeter
 - DR3900 Spectrophotometer
 - Chlorimeter
- All supplied equipment, hardware, parts, and consumables must be fully compatible and integratable into the existing **HACH equipment**.
- All parts must come supplied with a detailed contents list.
- All supplied hardware, parts and consumables must be suitable for the analysis of all unclean waters such as sewage and industrial waste, and wastewater treatment samples.
- This is a closed (once off) tender.
- The supplier must quote on all costs including labour and travelling costs.
- The tender will be awarded to only one qualifying Supplier.
- Delivery of Specified items must be a maximum of 4 weeks from receipt of official order.
- All tender specified items supplied must be new and latest/compatible models currently in production.
- Only original Manufacturer's hardware and/or parts will be accepted.
- Tenderers submitting quotes must be able to supply, deliver, install, upgrade, operate and verify the specified items.
- The successful Tenderer must note that if the laboratory discovers, at any given time, that the quality of the supplies does not meet the required specifications and the Supplier is defaulting on the tender requirements, the

Infrastructure & Engineering

contract will be terminated. The above applies to the "Supplier Support Requirements" as well.

- The Supplier is obliged to respond to any breakdown/problem attributable to/or involving a supplied item within 48 hours of receipt of any breakdown/problem reported.
- Any repair or replacement deemed necessary/required must be effected within 10 working days to restore functionality from date of receipt of any breakdown/problem reported.
- Installation Personnel must be factory trained and certified by the Manufacturer concerned. The Certification must be applicable to the specified Analyser and must be producible on request.
- Any incomplete information on the respective requirements will result in exclusion.
- The parts must be covered by a minimum one-year warranty against defects in material and /or workmanship effective from date of installation.

MINIMUM REQUIREMENTS

- Prices per item must be completed on the "Pricing Schedule" provided.
- **Due to the critical nature of the specified equipment, installation and/or service must only be carried out by certified, factory trained personnel. The Certification must be applicable to the specified equipment and must be producible before the close of tender.**
