1. INTRODUCTION AND OVERVIEW

The Service Delivery and Budget Implementation Plan (SDBIP) serves as a critical mechanism for ensuring alignment between the Municipality's Integrated Development Plan (IDP) and its approved Budget. It provides a framework for translating the strategic objectives contained in the IDP into measurable service delivery commitments and facilitates the monitoring, evaluation, and reporting of municipal performance throughout the financial year.

The IDP is the Municipality's principal five-year strategic planning instrument and guides all planning, budgeting, management, and decision-making processes. It promotes the integration and coordination of programmes and projects within the Municipality and across all spheres of government, thereby supporting sustainable development and improved service delivery. The priorities and objectives identified in the IDP inform the allocation of municipal resources and the development of annual performance plans.

The SDBIP comprises a detailed one-year implementation plan that outlines the Municipality's key performance indicators (KPIs), quarterly performance targets, and budget allocations. It provides a direct link between the approved Budget and the delivery of municipal services by establishing measurable performance expectations and accountability mechanisms.

To enhance understanding and consistency in performance measurement, the document includes supplementary schedules containing KPI definitions, and calculation formulas. In addition, a separate schedule identifies those indicators on which the Municipality is currently unable to report due to budgetary, system-related, or data availability constraints. These indicators are supported by detailed action plans that outline the corrective measures and interventions required to address the identified challenges and strengthen future reporting capabilities.

The SDBIP further incorporates the compliance indicators and assessment questions prescribed in MFMA Circular 88 for planning, monitoring, and reporting purposes. In addition, a dedicated schedule reflects the Municipal Systems Act (MSA) Regulation 10 prescribed indicators that are not specifically accommodated within the MFMA Circular 88 framework, thereby ensuring comprehensive legislative compliance.

To facilitate effective financial monitoring and ensure alignment with the approved IDP and Budget, the SDBIP also includes monthly revenue and expenditure projections, annual cash flow forecasts, a three-year Capital Works Plan, and a Capital Budget by Ward.

The SDBIP consists of two distinct layers. The upper layer, commonly referred to as the municipal scorecard, is submitted to the Executive Mayor for approval and to Council for noting. This layer contains the Municipality's strategic performance indicators and targets and forms the basis for organisational performance monitoring and reporting. The lower layer applies to directorates and forms the foundation of the performance plans and performance agreements of Executive Directors, Directors, and other relevant officials. It contains additional operational indicators that support the achievement of the strategic indicators reflected in the upper layer. Executive Directors and Directors are responsible for developing and managing these performance plans in consultation with their respective departments to ensure alignment with municipal objectives and service delivery priorities.

2. LEGISLATIVE FRAMEWORK

The development and implementation of a Service Delivery and Budget Implementation Plan (SDBIP) are prescribed by the Local Government: Municipal Finance Management Act, 56 of 2003 (MFMA). The MFMA promotes sound financial management and accountability within municipalities and requires municipalities to establish mechanisms for implementing and monitoring their approved budgets. In terms of section 53(1)(c)(ii) of the MFMA, an SDBIP is defined as a detailed plan approved by the Mayor of a municipality for implementing the delivery of municipal services and the execution of the municipality's annual budget.

Section 53 of the MFMA requires that the SDBIP must include:

- (a) projections for each month of—
 - (i) revenue to be collected by source; and
 - (ii) operational and capital expenditure by vote;
- (b) service delivery targets and performance indicators for each quarter; and
- (c) any other matters that may be prescribed.

The SDBIP serves as a key management, implementation, and monitoring tool, enabling the Municipality to monitor progress against planned service delivery objectives and budget commitments throughout the financial year. It further provides a basis for assessing organisational performance and ensuring accountability to Council, the community, and other stakeholders.

In accordance with section 53(1)(c)(ii) of the MFMA, the Executive Mayor is required to approve the SDBIP within 28 days after the approval of the annual Budget. Furthermore, section 53(3)(a) requires that the approved SDBIP be made public within 14 days after its approval to promote transparency and accountability in municipal governance.

3. SDBIP CYCLE

FIGURE 1

The SDBIP constitutes a contract between the Administration, Council, and the community. It ensures that all role players are working towards the same objectives, as articulated in the Integrated Development Plan (IDP). The SDBIP provides a clear focus on inputs, outputs, and outcomes, thereby strengthening performance management and accountability across the Municipality.

It enables senior managers to monitor the performance of their subordinates; the City Manager to monitor the performance of senior managers; the Executive Mayor to monitor the performance of the City Manager; the Council to monitor the performance of the Administration; and the community to monitor the performance of the Council.

The SDBIP therefore serves as a management and implementation plan rather than a policy proposal.

4. PERFORMANCE REPORTING

To enhance performance assessment, accountability, monitoring and evaluation, reporting requirements are outlined below:

Frequency and nature of report	Mandate	Recipients
Monthly reporting on actual revenue targets and spending against budget no later than 10 working days after the end of each month	Section 71 of the Municipal Finance Management Act	1. Executive Mayor 2. Provincial and National Treasury
Quarterly progress report	Section 41(1) of the Municipal Systems Act Section 166(2)(a)(v) and (vi) of the Municipal Finance Management Act Regulation 7 of the Municipal Planning and Performance Management Regulations (2001)	1. City Manager 2. Executive Mayor 3. Mayoral Committee 4. Audit Committee 5. Provincial and National Treasury
Mid-Year Budget and Performance Assessment (assessment report due by 25 January each year)	Section 72 of the Municipal Finance Management Act Section 13(2)(a) of the Municipal Planning and Performance Management Regulations (2001)	1. City Manager 2. Executive Mayor 3. Mayoral Committee 4. Council 5. Audit Committee 6. Provincial and National Treasury 7. Provincial Government
Annual Report (to be tabled before Council by 31 January; draft and approved / published by 31 March each year)	Sections 121 and 127 of the Municipal Finance Management Act, as read with Section 46 of the Municipal Systems Act and Section 6 of the Systems Amendment Act	1. Executive Mayor 2. Mayoral Committee 3. Council 4. Audit Committee 5. Auditor General 6. Provincial and National Treasury 7. Provincial Government 8. Local Community

5. NMBM SCORECARD

The NMBM Scorecard reflects the institution's performance targets and key performance indicators aligned to the following outcome areas:

- Electricity and Energy
- Environment and Waste
- Financial Management
- Fire and Disaster Services
- Governance
- Housing and Community Facilities
- Local Economic Development
- Transport and Roads
- Water and Sanitation

These outcome areas are further categorised in line with the following Key Performance Areas:

- KPA 1 : Basic Service delivery
- KPA 2 : Municipal institutional development and transformation
- KPA 3 : Local economic development
- KPA 4 : Municipal financial viability and management
- KPA 5 : Good governance and public participation

(see table 2 – 2026/27 SDBIP - PERFORMANCE SCORECARD)

WS4. Improved quality of water (incl. wastewater)	WS4.2	WS4.21	KPA 1: BASIC SERVICE DELIVERY	71	Percentage of trade effluent producers inspected for compliance	Annually	68%	50%	In terms of MFMA Circular 88, the Municipality is required to report performance against this Key Performance Indicator in the Annual Performance Report only. However, where feasible, the Municipality monitors performance against this KPI throughout the financial year by incorporating relevant targets into the performance scorecard of the responsible Senior Manager. NOTE: Some indicators measure outcomes or end results rather than activities or outputs that can be meaningfully tracked on a quarterly basis. Indicators with annual targets are therefore only measurable once all annual data is available. Measuring these indicators quarterly may be misleading or statistically unreliable.				50%	No direct budget linked to Key Performance Indicator measurement					INFRASTRUCTURE AND ENGINEERING	
WS4. Improved quality of water (incl. wastewater)	N/A	WS4.31	KPA 1: BASIC SERVICE DELIVERY	72	Percentage of wastewater treatment capacity unused	Annually	40.98%	15%	In terms of MFMA Circular 88, the Municipality is required to report performance against this Key Performance Indicator in the Annual Performance Report only. However, where feasible, the Municipality monitors performance against this KPI throughout the financial year by incorporating relevant targets into the performance scorecard of the responsible Senior Manager. NOTE: Some indicators measure outcomes or end results rather than activities or outputs that can be meaningfully tracked on a quarterly basis. Indicators with annual targets are therefore only measurable once all annual data is available. Measuring these indicators quarterly may be misleading or statistically unreliable.				15%	No direct budget linked to Key Performance Indicator measurement					INFRASTRUCTURE AND ENGINEERING	
WS5. Improved water sustainability	WS5.1	N/A	KPA 1: BASIC SERVICE DELIVERY	73	Percentage real water losses as defined by the International Water Association (Physical losses of water from the distribution system, including leakage and storage overflows)	Quarterly	37.7%	33%	37%	36%	35%	33%	No direct budget linked to Key Performance Indicator measurement					INFRASTRUCTURE AND ENGINEERING		
NOTE: Further to the above, the Municipality has enclosed additional sheets which reflects KPIs for which reporting / budget / systems challenges exist, as well as the required Circular 88 Compliance Indicators / Questions and Regulation 10 Compliance Indicators.																				

6. DEFINITIONS FOR KPIS IN INSTITUTIONAL PERFORMANCE SCORECARD - 2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY INDICATOR PERFORMANCE	PRESCRIBED FREQUENCY OF REPORTING	INDICATOR FORMULA AS PER TID	DEFINITIONS
EE1: Improved access to electricity	EE1.1	EE1.11	KPA 1: BASIC SERVICE DELIVERY	1	Number of dwellings provided with connections to the mains electricity supply by the municipality	Quarterly	((1) Number of new residential supply points energised by the municipality	This indicator measures the number of new residential electricity connections to dwellings energised by the municipality.
EE2: Improved affordability of electricity	N/A	EE2.11	KPA 1: BASIC SERVICE DELIVERY	2	Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)	Annually	((1) Sum of the MWh of electricity provided as FBE by the municipality to residential customers / (2) Total MWh of electricity provided to residential customers)	This indicator measures the reliance of municipal residents on FBE for access to electricity by measuring how much of electricity provided by the municipality in MWh is subsidised through FBE. In other words, this indicator measures the extent of free electricity provided by the municipality to its residents as a percentage of the overall total amount of electricity sold to residential customers. This is inclusive of free allocations to indigent households. FBE is an amount of electricity determined by municipal policy provided on a monthly basis for free with the aim of assisting poor households to meet basic needs. Depending on the municipal policy, FBE may or may not be targeted exclusively at poor households.
EE3: Improved reliability of electricity service	N/A	EE3.11	KPA 1: BASIC SERVICE DELIVERY	3	Percentage of unplanned outages that are restored to supply within industry standard timeframes	Quarterly	((1) Number of unplanned outages where 98% of affected customers are restored within 24 hours / (2) Total number of unplanned outages	This indicator measures the proportion of unplanned electricity outages where at least 98% of the customers affected by the outage have their electricity supply restored with 24 hours of the incident. The industry standard NRS 047 specifies the restoration of electricity supply to differing proportions of affected customers within the standards of 1.5, 3.5, 7.5, 24 and 168 hours or less. This indicator tracks the 24 hour standard whereby at least 98% of customers affected by an unplanned outage have had their electricity restored. An unplanned outage is defined as a network event that occurs when a piece of equipment is taken out of service immediately, either automatically or as soon as switching operations can be performed, as a direct result of emergency conditions or a major natural event, such as risk to life or equipment.
EE3: Improved reliability of electricity service	EE3.2	EE3.21	KPA 1: BASIC SERVICE DELIVERY	4	Percentage of planned maintenance performed	Quarterly	((1) Actual number of maintenance 'jobs' for planned or preventative maintenance / (2) Budgeted number of maintenance 'jobs' for planned or preventative maintenance)	This indicator measures the actual executed maintenance jobs planned as a percentage of budgeted planned maintenance effort in scheduled 'jobs'. A 'job' is a planned maintenance task scheduled by the municipality.
EE3: Improved reliability of electricity service	EE3.2	EE3.22	KPA 1: BASIC SERVICE DELIVERY	5	Percentage of repairs coverage	Annually	((1) Total operational spend on repairs and maintenance of electricity utilities / (2) Total operational costs	This indicator measures how much is spent on repairs and maintenance of electricity utilities that is both planned and unplanned as a proportion of the total operational costs relating to the electricity utility.
EE4: Improved energy sustainability	EE4.4	EE4.41	KPA 1: BASIC SERVICE DELIVERY	6	Industrial and commercial metering performance	Annually	Sum of the (1) Industrial and commercial meters in full billing operation per month / (2) Total industrial and commercial customers aggregated over monthly billing cycles	This indicator measures the progress and maturity of the billing part of the revenue cycle that is active and in operation that should migrate towards a perfect (100%) score. It tracks industrial and commercial meters in full billing operation at point of delivery (POD) as a percentage of the total industrial and commercial customers. This is measured monthly but calculated as an annual average proportion. The sum of the industrial and commercial meters that meet this condition monthly are divided by the total number of industrial and commercial customers aggregated over the 12 billing cycles of the year.
EE4: Improved energy sustainability	EE4.4	EE4.42	KPA 1: BASIC SERVICE DELIVERY	7	Prepayment efficiency	Annually	Sum of the (1) Total monthly active customers per month / (2) Total number of prepayment customers aggregated over 12 months	This indicator tracks the performance of the vending system selling prepaid tokens to customers monthly. The indicator measures whether the prepayment meters in the system are active and receive tokens for energy purchases on a monthly basis. The indicator is seeking to encourage maximum efficiency for prepayment sales.
EE4: Improved energy sustainability	EE4.4	EE4.43	KPA 1: BASIC SERVICE DELIVERY	8	Percentage of automated meter reading coverage	Annually	((1) Number of industrial and commercial customer meters with AMR / (2) Total industrial and commercial customer meters	This indicator measures the automated meter reading (AMR) that is operating as a percentage of total installed industrial and commercial metering.
EE4: Improved energy sustainability	EE4.4	N/A	KPA 1: BASIC SERVICE DELIVERY	9	Percentage non-technical electricity losses (electricity losses as a result of non-technical causes attributed to either electricity theft / non-metered electricity / meter tampering / meter failures and/or illegal connections)	Quarterly	((1) Energy losses – Technical losses / (2)Total Energy charge x 100	This indicator measures the difference between total energy losses and technical losses. Technical losses occur naturally and consist mainly of power dissipation in electricity system components such as transmission and distribution lines, transformers, and measurement systems. Non-technical losses are caused by actions external to the power system and consist primarily of electricity theft, non-payment by customers, and errors in accounting and record-keeping.
ENV1: Improved air quality	N/A	ENV1.12	KPA 1: BASIC SERVICE DELIVERY	10	Percentage of AQ monitoring stations providing adequate data over a reporting year	Annually	((1) Number of fully operational AQ monitoring stations / (2) Total number of government owned (all spheres) monitoring stations within municipal area)	This indicator measures the proportion of air quality (AQ) monitoring stations that are sufficiently functional to provide an accurate indication of air quality over a full reporting year in the municipal area is assessed. Currently, functionality is defined as the capability to provide at least 75% of a full year's worth of anticipated, validated data. In cases where a monitoring station does not plan to collect data for specific air quality measurements, it should not be judged against parameters for which it is not positioned to collect data. The 75% data requirement is specific to each respective station's planned samples for the year.
ENV2: Improved solid waste management	ENV2.1	ENV2.31	KPA 1: BASIC SERVICE DELIVERY	11	Percentage functionality of municipal weighbridge infrastructure	Annually	Functionality (%)= (Σ((1)Weighbridge uptime days_i x (2calibration status_i)) / ((3)total number of weighbridge sitesx365)	This indicator tracks the presence and functionality of weighbridges at all active municipal landfills and transfer station sties. Weighbridge uptime per site is measured in days and is used as a proxy for data availability, the veracity of waste mass, vehicle trips, and logistics performance. Functionality of municipal weighbridges per site is therefore measured in the number of weighbridge uptime days based on calibrated status of the weighbridge. Calibration status is determined on the basis of a valid calibration certificate for each weighbridge within the 12 months preceding the data of reporting. The uptime days for weighbridges with without valid certificates will not be considered functional. There may be multiple weighbridges operating in parallel at a single site - typically at least two. Compliance is therefore assessed at site level rather than individual weighbridge. Transfer Station- A facility where waste is temporarily stored before it is transported more economically to either recycling centres or landfills (Municipal Waste Sector Plan, 2012). Landfill Site- An authorised site for the controlled disposal of waste materials also a waste disposal site (Municipal Waste Sector Plan, 2012).

6. DEFINITIONS FOR KPIS IN INSTITUTIONAL PERFORMANCE SCORECARD - 2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY INDICATOR PERFORMANCE	PRESCRIBED FREQUENCY OF REPORTING	INDICATOR FORMULA AS PER TID	DEFINITIONS
ENV2. Improved solid waste management	ENV2.1	ENV2.32	KPA 1: BASIC SERVICE DELIVERY	12	Percentage compliance of waste management facilities	Annually	Compliance (%) = (1) Number of completed and publicly accessible audit reports of municipal waste management facilities / (2) Total number of waste management facilities reports required	This indicator measures the degree of compliance of waste management facilities with the auditing, monitoring, and reporting requirements mandated under National Environmental Management: Waste Act (NEM:WA) of 2008 and associated norms and standards. Specifically, it requires: • Completion and submission of both internal and external environmental audit reports by licensed or registered waste management facilities, in accordance with the frequency and scope prescribed by their licences or applicable norms and standards; • Submission of audit reports to the competent authority within stipulated timelines; • Public disclosure of external audit reports to ensure transparency and accountability to local communities and stakeholders; • Facilities that are not licensed or registered receive a score of zero, to incentivize formal compliance and registration. A waste management facility is any facility that requires a waste management license OR a norms and standards registration as both these categories of facility res or landfills (Municipal Waste Sector Plan, 2012). Landfill Site- An authorised site for the controlled disposal of waste materials also a waste disposal site (Municipal Waste Sector Plan, 2012).
ENV2. Improved solid waste management	ENV2.1	ENV2.33	KPA 1: BASIC SERVICE DELIVERY	13	Percentage of landfill sites with airspace monitoring	Annually	((1) Number of operational landfill sites with valid topographical and airspace assessment reports / (2) Total number of operational landfill sites	This indicator measures whether municipalities conduct and maintain annual topographical surveys and airspace assessments for all operational landfill sites. This looks at the number of operational landfill sites with valid topographical and airspace assessment reports, those are reports produced within the last 12 months (within the financial year of reporting). This is calculated as a proportion of the overall number of operational landfill sites, regardless of whether they are compliant waste management facilities. While the calculation is based solely on the availability of survey reports for sites, the indicator supports broader objectives, including informed landfill operations, long-term capacity planning, and accurate financial provisioning for rehabilitation liabilities.
ENV3. Increased access to refuse removal	ENV3.1	ENV3.11	KPA 1: BASIC SERVICE DELIVERY	14	Percentage of recognised informal settlements receiving basic waste removal services	Quarterly	((1) Number of informal settlements receiving basic waste removal services / (2) Total number of recognised informal settlements)	This indicator measures the proportion of recognised informal settlements within the municipal area which are receiving at least a basic standard of service for refuse collection all weeks in the year. A "recognised informal settlement" refers to any process whereby the municipality officially documents the existence of the informal settlement and its obligations with regards to servicing its residents. This excludes "known" settlements that may emerge in the course of the reporting as a result of land invasions or on private property which the municipality is not responsible for. If the informal settlement has not received a basic standard of service in duration of more than one week, it should not be counted. Informal settlements that have experienced delayed collection of more than a week, or skipped weeks, are not considered to have received a basic standard of refuse removal.
ENV5. Coastal and inland water resources maintained	N/A	ENV5.12	KPA 1: BASIC SERVICE DELIVERY	15	Number of coastal water samples taken for monitoring purposes	Quarterly	(1) Simple count of the number of coastal water samples taken for monitoring purposes	This indicator measures the number of coastal and water samples taken for monitoring purposes in the municipality. "Water samples taken", in this instance, refers to samples that have been taken for water quality testing. This refers to the number of samples tested for all relevant monitoring purposes, it does not refer to the number of itemised tests conducted per sample.
ENV5. Coastal and inland water resources maintained	N/A	ENV5.21	KPA 1: BASIC SERVICE DELIVERY	16	Number of inland water samples tested for monitoring purposes	Quarterly	(1) Simple count of the number of inland water samples taken for monitoring purposes	This indicator measures the number of inland water samples taken for monitoring purposes in the municipality. "Water samples taken", in this instance, refers to samples that have been taken for water quality testing. This refers to the number of samples tested for all relevant monitoring purposes, it does not refer to the number of itemised tests conducted per sample.
FM1. Enhanced municipal budgeting and budget implementation	FM1.1	FM1.11	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	17	Total Capital Expenditure as a percentage of Total Capital Budget	Quarterly	((1) Actual Capital Expenditure / (2) Budgeted Capital Expenditure	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality for acquiring, upgrading, and renewing assets such as property, equipment, plants, buildings, intangible assets, investment property or any other assets meeting the definition of assets in terms of GRAP.
FM1. Enhanced municipal budgeting and budget implementation	FM1.1	FM1.12	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	18	Total Operating Expenditure as a percentage of Total Operating Expenditure Budget	Quarterly	((1) Actual Operating Expenditure / (2) Budgeted Operating Expenditure	This indicator measures the extent to which operating expenditure has been spent during the financial year. Operating Expenditure (non-capital spending) is costs which the municipality incurs through its operations.
FM1. Enhanced municipal budgeting and budget implementation	FM2.1	FM1.13	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	19	Total Operating Revenue as a percentage of Total Operating Revenue Budget	Quarterly	((1) Actual Operating Revenue / (2) Budgeted Operating Revenue	This indicator measures the extent of actual operating revenue (excl. capital revenue) generated in relation to budgeted operating revenue during the financial year. Operating revenue is revenue generated from sale of goods or services, taxes or intergovernmental transfers
FM1. Enhanced municipal budgeting and budget implementation	FM1.1	FM1.14	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	20	Service Charges and Property Rates Revenue as a percentage of Service Charges and Property Rates Revenue Budget	Quarterly	((1) Actual Service Charges Revenue + (2) Actual Property Rates Revenue) / (3) Budgeted Service Charges and Property Rates Revenue	This ratio measures the extent of actual Service Charges and Property Rates Revenue generated in relation to budgeted Service Charges and Property Rates Revenue during the financial year. Service Charges includes revenue generated from sale of water, electricity, refuse and sanitation. Property rates includes revenue generated from rates and taxes charged on properties.
FM2. Improved financial sustainability and liability management	FM2.2	FM2.21	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	21	Cash backed reserves reconciliation at year end	Annual	((1) Actual Cash and Cash Equivalents + (2) Long Term Investment - (3) Unspent grants (4) Unspent borrowing - (5) statutory requirement - (6) working capital requirements - (7) other provisions - (8) long term investment committed - (9) reserves to be cash backed	This indicator measures if there is a cash surplus at the end of the financial year after accounting for all commitments. Commitments refers to items that must be cash backed such as unspent conditional grants, unspent borrowing, VAT, working capital requirements, sinking fund or reserves approved by Council. Data elements, for the purpose of this indicator, are drawn from the data contained in annual financial statements.
FM3. Improved liquidity management	FM3.1	FM3.11	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	22	Cash/Cost coverage ratio	Quarterly	((((1)Cash and Cash Equivalents - (2) Unspent Conditional Grants - (3) Overdraft) + (4) Short Term Investment) / (5) Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)	This ratio tracks how long it can take the municipality to pay at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month.
FM3. Improved liquidity management	FM3.1	FM3.12	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	23	Current ratio (current assets/current liabilities)	Annually	((1) Current assets/ (2) Current liabilities	This ratio is used to assess the municipality's ability to pay back its short-term liabilities (Debt and Payables) with its short-term assets (Cash, Inventory, Receivables).

6. DEFINITIONS FOR KPIS IN INSTITUTIONAL PERFORMANCE SCORECARD - 2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY INDICATOR PERFORMANCE	PRESCRIBED FREQUENCY OF REPORTING	INDICATOR FORMULA AS PER TID	DEFINITIONS
FM3. Improved liquidity management	FM3.1	FM3.13	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	24	Trade payables to cash ratio	Quarterly	(1) Trade payables / (2) Cash and cash equivalents	This ratio indicates the municipality's capacity to pay its creditors with cash and equivalent only.
FM3. Improved liquidity management	FM3.1	FM3.14	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	25	Liquidity ratio	Quarterly	(1) Cash and cash equivalents / (2) Current liabilities	This ratio only considers a municipality's most liquid assets – cash and investments. These are the assets that are most readily available to a municipality to pay short-term obligations. It is a stricter and more conservative measure because cash and cash equivalent is only used in the calculation.
FM4. Improved expenditure management	FM4.3	FM4.31	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	26	Creditors payment period	Quarterly	((1) Trade Creditors Outstanding / (2) Credit purchases (operating and capital) X (3) Number of days in the reporting year to date	This indicator reflects the average number of days taken for trade creditors to be paid. It is a useful indicator to measure the cash flow or liquidity position of a municipality. Total outstanding creditors is total amount owed (capital and operating expenditure) by the municipality. Section 65 of the MFMA prescribe municipalities to pay all monies owed within 30 days of receiving an invoice.
FM5. Improved asset management	FM5.1	FM5.11	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	27	Percentage of total capital expenditure funded from own funding (Internally generated funds + Borrowings)	Quarterly	Own Funded Capital Expenditure ((1) Internally Generated Funds + (2) Borrowings) / (3) Total Capital Expenditure	This ratio measures the level to which municipality's total capital expenditure is funded through Internally Generated Funds and Borrowings. It also assess the level at which a municipality is able to generate own funds to finance revenue generating assets to enhance and sustain revenue streams.
FM5. Improved asset management	FM5.1 & FM7.2	FM5.12	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	28	Percentage of total capital expenditure funded from capital conditional grants	Annually	(1) Total Capital Transfers (provincial and national capital conditional grants) / (2) Total Capital Expenditure	This ratio measures to what extent a municipality depend on grants to deliver services to its communities. Conditional grants are transfers and subsidies are given to municipalities by national or provincial departments as well as other external agencies for specific purposes.
FM5. Improved asset management	FM5.2	FM5.21	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	29	Percentage of total capital expenditure on renewal/upgrading of existing assets	Annually	(1) Total costs of Renewal and Upgrading of Existing Assets / (2) Total Capital Expenditure	This indicator measures the extent to which the municipality prioritise or protect its existing infrastructure assets. Renewal/Upgrading of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as restoration of the service potential of the asset.
FM5. Improved asset management	FM5.2	FM5.22	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	30	Renewal/Upgrading of Existing Assets as a percentage of Depreciation/Asset impairment	Annually	(1) Total costs of Renewal and Upgrading of Existing Assets / ((2) Depreciation + (3) asset impairment)	This indicator measures the extent at which the municipality prioritise or protect its existing infrastructure assets. Renewal, Upgrading or Replacement of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as replacement of an asset.
FM5. Improved asset management	FM5.3	FM5.31	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	31	Repairs and Maintenance as a percentage of property, plant, equipment and investment property	Annually	(1) Total Repairs and Maintenance Expenditure/ ((2) Property, Plant and Equipment + (3) Investment Property (Carrying Value))	This indicator measures the extent at which the municipality spent on repairs and maintenance of infrastructure assets relative to its asset base. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, etc.
FM7. Improved revenue and debtors management	FM7.1	FM7.11	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	32	Debtors payment period	Quarterly	((1) Gross Debtors - (2) Bad Debt Provision) / (3) Billed Revenue) × (4) Number of days in the reporting period year to date	The Net Debtor Days refers to the average number of days required for a municipality to receive payment from its consumers for bills/invoices issued to them for services.
FM7. Improved revenue and debtors management	N/A	N/A	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	33	Percentage billed revenue collected (excluding write-offs)	Quarterly	!) Revenue collected / 2) Revenue billed	This ratio measures the revenue collected by the municipality in relation to the revenue billed. This is a simple calculation not considering bad-debt and write offs
FM7. Improved revenue and debtors management	FM7.1	FM7.12	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	34	Collection rate ratio	Quarterly	((1) Gross Debtors Opening Balance + (2) Billed Revenue – (3) Gross Debtors Closing Balance - (4) Bad Debts Written Off) / (2) Billed Revenue	This ratio measures the revenue collection level of a municipality. It considers the level of increase or decrease of gross debtors relative to annual billed revenue. In addition, in order to determine the real collection rate bad debts written-off is taken into consideration
FM7. Improved revenue and debtors management	FM7.3	FM7.31	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	35	Net Surplus /Deficit Margin for Electricity	Annually	((1) Total Electricity Revenue - (2) Total Electricity Expenditure) / (1) Total Electricity Revenue	Electricity is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing electricity services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. Overhead costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
FM7. Improved revenue and debtors management	FM7.3	FM7.32	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	36	Net Surplus /Deficit Margin for Water	Annually	((1)Total Water Revenue - (2) Total Water Expenditure) / (1) Total Water Revenue	Water is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing water services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. Overhead costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.

FM7. Improved revenue and debtors management	FM7.3	FM7.33	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	37	Net Surplus /Deficit Margin for Wastewater	Annually	((1) Total Sanitation and Waste Water Revenue - (2) Total Sanitation and Waste Water Expenditure) / (1) Total Sanitation and Waste Water Revenue	Wastewater is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing wastewater and sanitation services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
FM7. Improved revenue and debtors management	FM7.3	FM7.34	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	38	Net Surplus /Deficit Margin for Refuse	Annually	((1) Total Refuse Revenue - (2) Total Refuse Expenditure) / (1) Total Refuse Revenue	Refuse is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing refuse services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
FD1. Mitigated effects of fires and disasters	FD 1.1	FD1.11	KPA 1: BASIC SERVICE DELIVERY	39	Percentage compliance with the required attendance time for structural firefighting incidents	Quarterly	(1) Number of structural fire incidents where the attendance time was 14 minutes or less / (2) Total number of calls for structural fire incidents received	Structural fire incidents are defined as incidents of fire outbreaks in habitable formal structures (buildings that have approved building plans) and habitable informal structures (informal residential dwellings where no approved building plans exist). The indicator measures the percentage of times that these incidents receive a response within the 14 minute standard. This measure of the attendance time is the difference between the time of call (the time an official call or notice is received at the official call or reporting centre) and the arrival time (refers to the time captured for the first arriving firefighting response unit regardless from where dispatched or regardless of order of dispatch). The indicator therefore measures the number of all incidents where the attendance time was 14 minutes or less as a percentage of all incidents. • Attendance time is the difference between the time of call and the time of arrival of the first arriving firefighting response unit at the given address of the incident, (i.e.) Attendance Time = Time of arrival at given address –s- Time Call Received by ECC personnel and equipment in minutes and seconds for the year (numerator) divided by the number of fire department responses in the same year (denominator).
GG1. Improved municipal capability	GG 1.2	GG1.22	KPA 2: MUNICIPAL TRANSFORMATION AND DEVELOPMENT	40	Percentage of vacant posts filled within 6 months	Quarterly	((1) Number of vacant posts filled within 6 months since the date (dd/mm/yyyy) of authority to proceed with filling the vacancy / (2) Number of vacant posts that have been filled)	This indicator measures the percentage of posts for which an appointment decision has been made within six months of the authority to proceed with filling the post. 'Vacant posts' in this instance, refers to all budgeted posts on the municipal organogram for which a recruitment process has been initiated. A position is considered 'filled' when a recruitment decision is made and an offer of appointment formally accepted by a recruit, regardless of the start date. 'Authority to proceed with filling a post' refers to the point of time at which the relevant official authorises the filling of a vacancy in terms of relevant municipal policies and procedures. This refers to an individual post and does not apply to bulk recruitments.
GG2. Improved municipal responsiveness	GG 2.1	GG2.11	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	41	Percentage of ward committees with 6 or more ward committee members (excluding the ward councillor)	Quarterly	((1) The number of ward committees with 6 or more members) / (2) Total number of wards)	This indicator measures the percentage of ward committees that had 6 or more members, excluding the ward councillor, as a proportion of the total number of wards at the last day of the reporting period.
GG2. Improved municipal responsiveness	GG 2.1	GG2.12	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	42	Percentage of wards that have held a quarterly councillor-convened community meeting	Quarterly	(1) Number of councillor convened ward community meetings / ((2) Total number of wards in the municipality x (3) Reporting quarter)	This indicator measures the number of wards where ward councillors convened at least one community meeting in the quarter as per statutory requirements, as a percentage of all the wards in the municipality. Community meetings refer to any public meeting for which public notice is given, held in the councillor's ward, and at which the ward councillor convenes the meeting. For the purposes of the indicator, a ward cannot report more councillor-convened community meetings than the quarter which is being reported against.
GG3. Improved municipal administration	GG 3.1	GG 3.11	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	43	Number of repeat audit findings	Annually	(1) Simple count of the number of "repeat" findings itemised in the Auditor-General's report of each municipality	"Repeat" findings refer to those findings which have persisted from one year of reporting to the next. These are identified as repeat findings by the Auditor-General on the following administrative areas including but not limited to: i) annual financial statements and annual report ii) Strategic planning and performance iii) Consequence management iv) Human Resource management
GG3. Improved municipal administration	GG 3.1	GG 3.12	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	44	Percentage of councillors who have declared their financial interests	Annually	((1) Number of councillors that have declared their financial interests/ (2) Total number of municipal councillors)	This indicator measures the percentage of all councillors that have declared their financial interests for the financial year being reported against. Financial interests refers to all relevant financial matters or dealings which may create the potential for a conflict of interest.
GG3. Improved municipal administration	GG 3.1	GG 3.13	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	45	Percentage of administrative staff who have declared their financial interests	Annually	((1) Number of administrative staff that have declared their financial interests / (2) Total number of municipal administrative staff)	This indicator measures the percentage of administrative staff that have declared their financial interests for the financial year being reported against. Administrative staff are understood as all staff employed by the municipality that do not serve in an elected or representative capacity.
GG5. Zero tolerance of fraud and corruption	GG 5.1	GG5.11	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	46	Number of active suspensions longer than three months	Quarterly	(1) Simple count of the number of active suspensions in the municipality lasting more than three months	This indicator refers to the total number of active suspensions at the time of reporting that were initiated more than three months prior and had not yet been resolved.
HS1. Improved access to adequate housing	HS1.1	HS1.11	KPA 1: BASIC SERVICE DELIVERY	47	Number of subsidised housing units constructed using various Human Settlements Programmes	Annually	(1)Number of all subsidised housing units constructed within the municipal area	This indicator measures the number of all subsidised housing units (in terms of minimum levels of service) constructed within the municipal area in the reporting period. Constructed within the municipal area refers to all housing units with finished construction within the municipal area built in terms of the various Human Settlements Programmes for which the Provincial Government receives the Human Settlements Development Grant (HSDG). This refers to any unit in which a subsidisation on the housing unit is provided, inclusive of all human settlements programmes.

6. DEFINITIONS FOR KPIS IN INSTITUTIONAL PERFORMANCE SCORECARD - 2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY INDICATOR PERFORMANCE	PRESCRIBED FREQUENCY OF REPORTING	INDICATOR FORMULA AS PER TID	DEFINITIONS
HS1. Improved access to adequate housing	HS1.1	HS1.12	KPA 1: BASIC SERVICE DELIVERY	48	Number of serviced sites	Quarterly	(1) Number of all sites serviced receiving the specified basic services	A site refers to a pre-determined area where basic services can be provided, there is some degree of security of tenure and to which a household can be situated or relocated and/or upgraded. This refers to the number of all sites serviced with a new connection(s) achieving water and sanitation to a basic level of service, as well as road access, within the municipality. These sites do not include the construction of top structures. A basic level of service is defined as an individual service to each site for water and sanitation (not shared) meeting the national minimum standard (the Regulations in terms of the Water Services Act in the case of water and sanitation), or the minimum standards defined by the municipality, whichever is higher. The indicator only measures from the point when the specified basic services have been connected, regardless of the timeframes between when water & sanitation connections and road access. This refers to direct connections only and does not provide for indirect connections.n
HS1. Improved access to adequate housing	HS1.1	HS1.13	KPA 1: BASIC SERVICE DELIVERY	49	Hectares of land acquired for human settlements in the municipal area	Annually	(1) Total land area (in hectares) acquired for human settlement within the municipal area	This indicator measures the hectares of land acquired for human settlements development within the municipal area. Therefore, this refers to land acquired in an agreement between at least two parties for which purchase and sales agreement or donation agreements or expropriation notices have been concluded, inclusive of finalised devolution processes. The land is understood to have been acquired with the intention of advancing human settlements development within the municipal area, subject to the subsequent completion of any outstanding planning and approval processes.
HS1. Improved access to adequate housing	N/A	HS1.22	KPA 1: BASIC SERVICE DELIVERY	50	Number of title deeds registered to beneficiaries	Quarterly	Simple count of the (1) number of title deeds registered to beneficiaries within a municipality in the period under assessment	This indicator measures the number of title deeds registered to beneficiaries within a municipality during the period under assessment. A title deed is a document that proves legal ownership of a property in South Africa. This refers to title deeds registered to beneficiaries of human settlements programmes within the municipal area.
HS1. Improved access to adequate housing	HS1.3	HS1.31	KPA 1: BASIC SERVICE DELIVERY	51	Number of informal settlements assessed (enumerated and classified)	Annually	Simple count of the (1) number of informal settlements enumerated and classified according to the UISP categorisation, or equivalent, in the period under assessment.	This indicator measures the number of designated informal settlements within the municipal area enumerated and classified according to the NUSP categorisation, or equivalent. Enumeration includes the collection of household level data of informal settlement residents, as well as the levels and status of services in the settlement.
HS1. Improved access to adequate housing	HS1.3	HS1.32	KPA 1: BASIC SERVICE DELIVERY	52	Number of informal settlements upgraded to Phase 2	Annually	(1) Number of informal settlements that have been upgraded to Phase 2 in terms of the National Housing Code- Upgrading Informal Settlements	This indicator measures the number of informal settlements upgraded to Phase 2, in terms of the Housing Code- Upgrading Informal Settlements, Phase 2: Project Initiation. "Upgraded to Phase 2" is achieved when all the milestones as per Upgrading Informal Settlements Phase 2 have been implemented within an informal settlement. This is inclusive of the following: acquisition of land where required; undertaking of a clear socio-economic and demographic profile/survey of the settlement; establishing an agreement between the community and municipality; installation of interim services to provide basic water and sanitation services to households on an interim basis; conducting of pre-planning studies to determine detailed geotechnical conditions and the undertaking of an environmental impact assessment to support planning processes.
HS2. Improved functionality of the residential property market	HS2.2	HS2.21	KPA 3: LOCAL ECONOMIC DEVELOPMENT	53	Number of residential properties developed through state subsidised human settlements programmes entering the municipal valuation roll	Annually	A simple count of (1) the number of all residential properties that have benefited from state-subsidised human settlements programmes that have entered the municipal valuation roll	This indicator measures the number of residential properties that have entered the municipal valuation roll, inclusive of the supplementary valuation roll, following from incremental interventions in terms of the National Housing Code (2009). This includes "zero-rated" properties that enter the municipal valuation roll after completion of human settlements programme outputs (e.g. housing units). This does not include all those benefiting only from financial interventions, but focuses on the outputs of housing programmes specifically. It is inclusive of properties developed through informal settlement upgrading and formalisation processes that result in properties being added to the municipal valuation roll.
HS2. Improved functionality of the residential property market	HS2.2	HS2.22	KPA 3: LOCAL ECONOMIC DEVELOPMENT	54	Average number of days taken to process building plan applications of less than 500 square meters	Quarterly	(1) Sum of the number of days between the date of submission of a complete building plan application to the municipality and the communication of the adjudication result of the application, for all applications less than 500 square meters /(2) Number of building plan applications less than 500 square meters adjudicated	This indicator measures the number of days a building plan application to the municipality takes to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal" are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
LED1. Growing inclusive local economies	N/A	LED1.11	KPA 3: LOCAL ECONOMIC DEVELOPMENT	55	Percentage of total municipal operating expenditure spent on contracted services physically residing within the municipal area	Quarterly	(1) R-value of operating expenditure on contracted services within the municipal area / (2) Total municipal operating expenditure on contracted services	This indicator measures the value of municipal operating expenditure that has been spent on payments to contracted organisations with a physical address within the municipal area as a percentage of the total operating expenditure on payments to all contracted organisations. Contracted service providers are inclusive of consultancy services, and refer to services rendered by any entity outside of the municipality secured through a public procurement process.
LED1. Growing inclusive local economies	N/A	LED1.21	KPA 3: LOCAL ECONOMIC DEVELOPMENT	56	Number of work opportunities created by the municipality through Public Employment Programmes (incl. EPWP, CWP and other related employment programmes)	Quarterly	(1) Number of work opportunities provided by the municipality through the Expanded Public Works Programme + (2) the Number of work opportunities provided through the Community Works Programme and other related infrastructure initiatives.	This indicator measures the simple count of the number of short-term work opportunities provided through the municipality by Public Employment Programmes such as Expanded Public Works Programme, Community Works Programme and other related infrastructure initiatives. EPWP is a nationwide programme covering all spheres of government and SOEs. EPWP projects employ workers on a temporary or ongoing basis with government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions. The CWP was established to provide an employment safety net to eligible members of target communities by offering them a minimum number of regular days of work each month. The programme targets unemployed and underemployed people. The stipends participants receive supplement their existing livelihood means and provide them with a basic level of income security. The indicator tracks the number of unique work opportunities generated within the quartent, (i.e.) Attendance Time = T
LED1. Growing inclusive local economies	N/A	LED 1.31	KPA 3: LOCAL ECONOMIC DEVELOPMENT	57	Number of individuals connected to apprenticeships and learnerships through municipal interventions	Quarterly	(1) Simple count of the number of individuals enrolled in apprenticeships, learnerships and structured educational programmes through municipal interventions	This indicator measures the number of individuals connected to apprenticeships, structured educational programmes and learnerships through municipal interventions. Municipal interventions refer to any project, programme or initiative intended to facilitate or implement change among the target population. Apprenticeships, structured educational programmes and learnerships, in this instance, refer specifically to structured learning processes for gaining theoretical knowledge and practical skills in the workplace leading to an accreditation or qualification recognised in terms of the National Qualifications Authority.
LED2. Improved levels of economic activity in municipal economic spaces	LED 2.1	LED2.11	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	58	Percentage of budgeted rates revenue collected	Quarterly	((1) R-value of all municipal property rates revenue collected / (2) R-value of the rates revenue operating budget for the financial year)	This indicator measures the R-value of the rates revenue as a percentage of the total rates revenue operating budget. Municipal property rates are an amount levied on the market value of immovable property (that is, land and buildings). Revenue, in this instance, refers to income collected by the municipality in R-value within the designated financial period. The operating rates revenue budget refers to the amount of the municipal operational budget which was targeted within the municipal budget as approved by Council for the financial year.
LED2. Improved levels of economic activity in municipal economic spaces	LED 2.1	LED 2.12	KPA 3: LOCAL ECONOMIC DEVELOPMENT	59	Percentage of the municipality's operating budget spent on indigent relief for free basic services	Quarterly	((1) R-value of operating budget expenditure on free basic services / (2) R-value of the total operating budget)	This indicator measures the amount municipal operating budget expended on free basic services to indigent households (R-value) as a percentage of the total operating budget of the municipality for the period. Free Basic Services are understood in terms of water, sanitation, electricity and waste removal services only.

6. DEFINITIONS FOR KPIS IN INSTITUTIONAL PERFORMANCE SCORECARD - 2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY INDICATOR PERFORMANCE	PRESCRIBED FREQUENCY OF REPORTING	INDICATOR FORMULA AS PER TID	DEFINITIONS
LED3. Improved ease of doing business within the municipal area	N/A	LED3.11	KPA 3: LOCAL ECONOMIC DEVELOPMENT	60	Average time taken to finalise business license applications	Quarterly	(1) Sum of the total working days per business application finalised/ (2) Number of business applications finalised	This indicator measures the average number of working days a business owner can expected to wait from the date of submission of a complete business licence application to the date of outcome of licensing decision from the municipality. Business license applications refer to those businesses applying in terms of the Businesses Act of 1991. A 'complete application' refers to the point at which all of the required administrative information has been supplied, allowing the municipality to proceed with the processing. A 'finalised' application refers to an application where the municipality has taken a decision to approve or deny the application. An application is consider finalised at the point of the decision, regardless of the time between the decision and the communication of the application outcome.
LED3. Improved ease of doing business within the municipal area	N/A	LED 3.12	KPA 3: LOCAL ECONOMIC DEVELOPMENT	61	Average time taken to finalise informal trading permits	Quarterly	(1) Sum of the number of days from the time of complete application for each informal trading permit to the time of adjudication/ (2) Number of completed informal trading permit applications finalised	This indicator measures the average amount of time (taken in days) to finalise informal trading permits within a municipality from the point of complete application to the point of adjudication. An informal trading permit is a permission provided by the municipality to small scale businesses with limited trading intentions to operate under certain conditions, usually in terms of a by-law, policy or plan governing informal trading in the municipality.
LED3. Improved ease of doing business within the municipal area	N/A	LED 3.13	KPA 3: LOCAL ECONOMIC DEVELOPMENT	62	Average number of days taken to process building application of 500 square meters or more	Quarterly	(1) Sum of the number of days between the date of submission of a complete building plan application to the municipality and the communication of the adjudication result of the application, for all applications of 500 square meters or more /(2) Number of building plan applications greater than or equal to 500 square meters adjudicated	This indicator measures the number of days building plan applications of 500 square meters or more take to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Whether a large building plan application is for commercial or residential purposes does not have a bearing as the proxy of 500 square meters or more is used in this instance. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal" are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
LED3. Improved ease of doing business within the municipal area	N/A	LED3.21	KPA 3: LOCAL ECONOMIC DEVELOPMENT	63	Percentage of revenue clearance certificates issued within 10 working days from the time of completed application received	Quarterly	((1) Number of revenue clearance certificates issued within 10 working days of a completed submission / (2) Total number of revenue clearance completed submissions made to the municipality)	This indicator measures the percentage of revenue clearance certificates issued by the municipality within 10 working days of a completed submission. A revenue clearance certificate is issued by the relevant local municipality, and reflects all of the debts collected on the property, including rates. The purpose of this document is to prove that all the outstanding debt on the property has been paid by the seller. A completed submission refers to the point in time when all necessary information has been supplied in relation to the certificate. The 10 days, in this instance, refers to 10 working days, not days of the week.
LED3. Improved ease of doing business within the municipal area	N/A	LED3.31	KPA 3: LOCAL ECONOMIC DEVELOPMENT	64	Average number of days from the point of advertising to the letter of award per 80/20 procurement process	Quarterly	(1) Sum of the number of days from the point of advertising a tender in terms of the 80/20 procurement process to the issuing of the letter of award/ (2) Total number of 80/20 tenders awarded as per the procurement process	This indicator measures the average number of days from the point of advertising to the letter of award per 80/20 procurement process. An 80/20 procurement process refers to public procurement as per the terms of the Preferential Procurement Regulations in terms of the Preferential Procurement Policy Framework Act for bids where an 80/20 Broad-Based Black Economic Empowerment (B-BBEE) thresholds of between R30 000 and R50 million applies. This would apply to tenders awarded within the financial year, and where disputes to the outcome of the tender process were not raised. This does not apply to requests for quotations.
LED3. Improved ease of doing business within the municipal area	N/A	LED3.32	KPA 4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT	65	Percentage of municipal payments made to service providers who submitted complete forms within 30-days of invoice submission	Quarterly	((1) Number of municipal payments within 30-days of complete invoice receipt made to service providers / (2) Total number of complete invoices received (30 days or older))	This indicator measures the percentage of municipal payments made to service providers within 30-days of complete invoice submission. The indicator measures the number of payments made on the basis of invoice submissions to the municipality within the accepted standard of 30 days or less. This measures 30 calendar days from the time of submission of an accurate invoice.
TR 5. Improved access to public transport (incl. NMT)	N/A	TR5.11	KPA 1: BASIC SERVICE DELIVERY	66	Number of scheduled public transport access points added	Annually	(1) Number of scheduled public transport access points added	This indicator measures the number of new public transport access points which has been constructed and operational in terms of the municipality's functional responsibilities (thus excluding commuter rail stations). A scheduled public transport service in this regard refers to a bus service provided by the municipal fleet (contracted or owned) at periodic intervals.
TR 5. Improved access to public transport (incl. NMT)	N/A	TR5.31	KPA 1: BASIC SERVICE DELIVERY	67	Percentage of scheduled municipal bus trips that are universally accessible	Quarterly	(1) Number of all scheduled municipal bus trips that are universally accessible / (2) Total number of scheduled municipal bus trips across all routes	This indicator measures the proportion of scheduled municipal bus trips in the municipal area served by municipality owned and/or contracted fleet that are universally accessible across the length of their routes. A municipal bus trip refers to a service that runs from a departure point at the start of a route to an arrivals point at the end with various bus service stops on the way. The indicator measures the proportion of all scheduled bus trips that are considered universally accessible- That is every scheduled bus service stop on the route has received a service that is universally accessible for the bus trip. A universally accessible service stop meets the following conditions: 1) It is serviced by a scheduled bus with accessibility provisions; and 2) Boarding bridges meet the accessibility provisions of the bus service. The indicator value is a proportion of all scheduled bus trips for all routes.
WS1. Improved access to sanitation	WS1.1	WS1.11	KPA 1: BASIC SERVICE DELIVERY	68	Number of new sewer connections meeting minimum standards	Quarterly	The (1) number of new sanitation connections to consumer installations + (2) the number of new sanitation connections to communal toilet facilities.	This indicator measures the total number of new sanitation connections (defined as connections to a flush toilet connected to the sewerage system or connected to an on-site sanitation system like a septic tank or a VIP toilet) made by the municipality. This is inclusive of new sanitation connections to communal facilities that meet basic sanitation standards.
WS2. Improved access to water	WS2.1	WS2.11	KPA 1: BASIC SERVICE DELIVERY	69	Number of new water connections meeting minimum standards	Quarterly	The (1) number of new water connections to piped (tap) water + (2) number of new water connections via communal standpipes	This indicator measures the total number of new water connections meeting minimum standards (supply of water is Piped (tap) water inside dwelling/institution, Piped (tap) water inside yard, and/or Communal Standpipe: <200 m) made by the municipality. This is inclusive of new water connections to communal facilities that meet minimum standards.
WS4. Improved quality of water (incl. wastewater)	WS4.1	WS4.11	KPA 1: BASIC SERVICE DELIVERY	70	Percentage of water treatment capacity unused	Annually	1 - [(1)Total volume water treated over the last year] / ((2) Daily water treatment plant available design capacity x 365)]	This indicator measures the percentage of water treatment capacity unused. Water treatment capacity refers to the maximum amount of water that a facility can safely process. The indicator measures the difference between the maximum amount the infrastructure can handle in terms of its available design capacity and the amount currently in use, as a percentage of the total capacity. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation this should be excluded from 'available design capacity'.
WS4. Improved quality of water (incl. wastewater)	WS4.2	WS4.21	KPA 1: BASIC SERVICE DELIVERY	71	Percentage of trade effluent producers inspected for compliance	Annually	((1) Number of industry trade effluent inspections undertaken / (2) Number of registered industrial producers with trade effluent)	This indicator measures the number of industrial producers with trade effluent that are inspected during the assessment period as a percentage of the total number of registered industrial producers with trade effluent, at the end of the municipal financial year. Inspections are only counted once per registered industry organisation, regardless of whether multiple inspections follow from the original visit.
WS4. Improved quality of water (incl. wastewater)	N/A	WS4.31	KPA 1: BASIC SERVICE DELIVERY	72	Percentage of wastewater treatment capacity unused	Annually	[1 - ((1) Total volume of wastewater treated over the last year / ((2) Daily wastewater treatment plant available design capacity x 365))]	This indicator measures the percentage of wastewater treatment capacity unused. Wastewater treatment capacity refers to the maximum amount of sewage that a facility is allowed to treat or to direct to a particular reuse or effluent disposal system. This refers to the collective available design capacity of all facilities servicing the municipal area. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation this should be excluded from 'available design capacity'.
WS5. Improved water sustainability	WS5.1	N/A	KPA 1: BASIC SERVICE DELIVERY	73	Percentage real water losses as defined by the International Water Association (Physical losses of water from the distribution system, including leakage and storage overflows)	Quarterly	(1)Real water losses /(2) Volume treated x 100	This indicator measures the volume of water lost by the Municipality through all types of leaks, breaks and overflows on mains, service reservoirs and service connections, up to the point of users metering.

7. CIRCULAR 88 INDICATORS WITH CHALLENGES (BUDGET, SYSTEM AND IMPLEMENTATION)												
NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.												
MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY PERFORMANCE INDICATOR	PRESCRIBED FREQUENCY OF REPORTING	CHALLENGE	STATUS QUO / BASELINE (2025/26 FINANCIAL YEAR)	ACTION PLAN STEPS TO BE UNDERTAKEN TO PROVIDE DATA / REPORT AGAINST KPI	ESTIMATED DATE WHEN DATA WILL BECOME AVAILABLE / WHEN KPI WILL BE INCLUDED IN SDBIP	WHAT RESOURCES OR SUPPORT IS REQUIRED TO ENSURE THAT DATA WILL BECOME AVAILABLE (IF BUDGET, PROVIDE ESTIMATE)	REPORTING DIRECTORATE / OFFICE
CIRCULAR 88 PRESCRIBED INDICATORS WITH BUDGET RELATED CHALLENGES												
TR 6. Improved quality of municipal road network	N/A	TR6.13	KPA 1: BASIC SERVICE DELIVERY	1	KMs of new municipal road network	Quarterly	N / A KPI not relevant to 2026/27	No budget has been allocated for the implementation of this KPI, as the Municipality does not have plans to construct a new municipal road network during the 2026/27 financial year. There is no requirement obligating the Municipality to introduce new access points in every financial year. As indicated in the National Treasury TID framework, this is a progressive rollout, which is dependent on budget availability and planning considerations rather than an annual deliverable. Furthermore, implementation is informed by both provincial and national planning processes. As such, the delivery of this KPI is dependent on external factors beyond the Municipality's direct control.	KPI implementation is dependent on national and provincial planning processes which are outside of the municipality's control.	N / A		INFRASTRUCTURE AND ENGINEERING
TR 6. Improved quality of municipal road network	N/A	TR6.11	KPA 1: BASIC SERVICE DELIVERY	2	Percentage of unsurfaced road graded	Annually	Budget	The Municipality does not currently have the budget required (approximately R150 million), to undertake a comprehensive assessment of all municipal roads within Nelson Mandela Bay, the last such assessment having been conducted in 2015. As a prerequisite to commencing this assessment, professional services must be procured to develop and implement a Pavement Management System. To facilitate this process, a KPI has been included in the relevant Senior Manager's scorecard to ensure that the necessary Supply Chain Management (SCM) procurement process is undertaken during the 2025/26 financial year. Securing the funding required to implement the road assessment project will constitute the subsequent phase. Accordingly, reporting against this KPI will only be possible once the Pavement Management System has been developed and the necessary funding has been secured, which is unlikely to occur before the 2026/27 financial year. This KPI will remain on the SDBIP Challenges Register until such time as sufficient funding is secured to enable implementation of the road assessment project and the reporting of performance against the indicator.	1. Secure the necessary budget allocation for the development of a Pavement Management System and the assessment of all municipal roads within Nelson Mandela Bay. 2. Initiate the procurement process by either advertising a tender or utilising an existing transversal contract to appoint a suitably qualified service provider to develop the Pavement Management System and undertake the assessment of all municipal roads within Nelson Mandela Bay. 3. Incorporate the relevant KPI into either the 2026/27 SDBIP or the 2027/28 SDBIP, depending on when the required budget becomes available and the project can be implemented.	By 30 June 2027 / 30 June 2028	Approximately R150 million	INFRASTRUCTURE AND ENGINEERING

NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.

By 30 June 2027 / 30 June 2028	Approximately R150 million	INFRASTRUCTURE AND ENGINEERING
ENV5. Coastal and inland water resources maintained	N/A	ENV5.11	KPA 1: BASIC SERVICE DELIVERY	5	Percentage of coastline with protection measures in place	Annually	Budget	There is currently a lack of clarity regarding the respective roles and responsibilities of the Nelson Mandela Bay Municipality and the Provincial Department of Forestry, Fisheries and the Environment in relation to coastline protection and management. It should further be noted that the Municipality does not currently have the budget required to review and update the Coastal Management Plan. During the 2025/26 financial year, the Municipality initiated a process to secure the necessary funding for this purpose. The Budget and Treasury Department has been engaged to facilitate the allocation of funding for the review of the Coastal Management Plan, and it is anticipated that this process will be concluded during the 2026/27 financial year. Furthermore, for monitoring and accountability purposes, a KPI has been incorporated into the 2026/27 Performance Plan of the Acting Executive Director: SRAC to ensure that the required funding is secured and that progress towards the review of the Coastal Management Plan is effectively tracked.	1. The SRAC Directorate has engaged with the Budget and Treasury Department regarding the funding requirements for the review of the Coastal Management Plan. SRAC has been advised to secure the required funding through internal budget processes, which will be undertaken during the 2026/27 financial year. 2. Upon confirmation of the required budget, SRAC will initiate the necessary Supply Chain Management (SCM) processes to procure the services of a suitably qualified service provider to undertake the review of the Coastal Management Plan. 3. The review of the Coastal Management Plan will be conducted in accordance with the applicable SCM processes and project timelines. 4. An appropriate KPI will thereafter be incorporated into the 2027/28 SDBIP to enable the monitoring and reporting of performance related to the implementation of the review.	By 30 June 2027.	Approximately R1.5 million	SRAC AND PUBLIC HEALTH

NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.

ENV4. Biodiversity is conserved and enhanced	ENV4.1	ENV4.11	KPA 1: BASIC SERVICE DELIVERY	6	Percentage of biodiversity priority area within the municipality	Annually	Budget	The Municipality does not currently have the data and baseline information required to measure performance against this indicator, as the existing Bioregional Plan is outdated. Consequently, the Municipality is unable to report on this indicator, as an updated Bioregional Plan is a prerequisite for the collection and analysis of the relevant information required for reporting purposes. The Municipality is currently in the process of finalising its Spatial Development Framework (SDF). Once the SDF has been approved, the review and development of the Bioregional Plan will commence. The service provider is expected to be appointed in November 2026. It is anticipated that the first phase for the data collection of the Bioregional Plan will be completed during the 2026/27 financial year, enabling the Municipality to commence with the actual review in the 2027/28 financial year.	1. Secure budget to review the Bioregional Plan. 2. Appoint Service Provider to review the Bioregional Plan. 3. Review the Bioregional Plan. 4. Use reviewed data to report performance against this KPI. 5. Include KPI in the 2027/28 SDBIP.	By 30 June 2028.	Approximately R673 000 (Phase 1) Data collection and verification	PUBLIC HEALTH
ENV4. Biodiversity is conserved and enhanced	ENV4.2	ENV4.21	KPA 1: BASIC SERVICE DELIVERY	7	Percentage of biodiversity priority areas protected	Annually	Budget	The Municipality does not currently have the data and baseline information required to measure performance against this indicator, as the existing Bioregional Plan is outdated. Consequently, the Municipality is unable to report on this indicator, as an updated Bioregional Plan is a prerequisite for the collection and analysis of the relevant information required for reporting purposes. The Municipality is currently in the process of finalising its Spatial Development Framework (SDF). Once the SDF has been approved, the review and development of the Bioregional Plan will commence. The service provider is expected to be appointed in November 2026. It is anticipated that the first phase for the data collection of the Bioregional Plan will be completed during the 2026/27 financial year, enabling the Municipality to commence with the actual review in the 2027/28 financial year.	1. Secure budget to review the Bioregional Plan. 2. Appoint Service Provider to review the Bioregional Plan. 3. Review the Bioregional Plan. 4. Use reviewed data to report performance against this KPI. 5. Include KPI in the 2027/28 SDBIP.	By 30 June 2028.	Approximately R673 000 (Phase 1) Data collection and verification	PUBLIC HEALTH
WS5. Improved water sustainability	WS5.2	WS5.21	KPA 1: BASIC SERVICE DELIVERY	8	Infrastructure leakage index	Annually	Budget and Capacity	The Municipality does not currently have the internal capacity to undertake a physical field verification of unmetered connections identified through EDAMS and GIS, nor does it have the necessary budget to outsource this exercise to an external service provider. To ensure progress in addressing this challenge, a KPI has been included in the performance scorecard of the Acting Executive Director: Infrastructure and Engineering to implement an action plan which will ensure that the physical verification of unmetered connections does take place. Once the verification process has been completed and the requisite baseline data has been established, the KPI will be incorporated into the SDBIP for performance monitoring and reporting purposes. In the interim, the KPI will remain on the System Challenges Register until such time as the Municipality is able to accurately measure, monitor, and report against it.	1. Secure the necessary internal capacity or budget to undertake a physical field verification of water connections. This exercise is planned for implementation during the 2026/27 financial year. 2. Alternatively, investigate and implement a cost-effective methodology or technological solution to verify water connections where a physical verification exercise is not feasible. 3. Review and rectify the underlying data to establish an accurate record of the total number of water connections, metered water connections, and unmetered water connections within the Municipality. 4. Utilise the verified and updated data to measure, monitor, and report performance against this KPI. 5. Incorporate the KPI into the 2027/28 SDBIP once the verification process has been completed and reliable baseline data has been established.	By 30 June 2027	N/A	INFRASTRUCTURE AND ENGINEERING

NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.

CIRCULAR 88 PRESCRIBED INDICATORS WITH SYSTEM AND REPORTING RELATED CHALLENGES												
GG1. Improved municipal capability	GG 1.2	GG 1.21	KPA 2: MUNICIPAL TRANSFORMATION AND DEVELOPMENT	11	Staff vacancy rate	Quarterly	System and Data	The staff vacancy rate could not be calculated, as the Municipality does not currently have a Council-approved organisational structure that accurately reflects the total number of approved posts within the Municipality. Consequently, the Municipality is unable to report on this indicator due to the absence of the required baseline data and reporting elements. To address this challenge, an internal verification and consultation process is underway to determine the number of filled and vacant positions across the institution. This process requires extensive engagement with relevant internal stakeholders, including organised labour, to ensure the accuracy and legitimacy of the information. Concurrently, the Municipality is reviewing its organisational structure to incorporate institutional reform initiatives and to ensure compliance with, and alignment to, the Municipal Staff Regulations. Upon completion of the review process, a comprehensive data clean-up of the SAP system will be undertaken to align employee and post information with the revised organisational structure. The updated structure will thereafter be submitted to Council for consideration and approval. It is anticipated that these processes will be concluded by 30 June 2027, following which the Municipality will be in a position to accurately calculate and report on the staff vacancy rate. Reporting against this indicator is therefore expected to commence during the 2027/28 financial year.	1. Determine the total number of posts on the organisational structure in comparison to the number of positions currently filled. 2. Identify the total number of funded vacant positions within the organisational establishment. 3. Provide timelines for the completion of the review of the staff organogram.	By 30 June 2027	No financial resources required - Alignment to Metro Trading Services Reform whilst implementing Staff Regulations	CORPORATE SERVICES
EE1. Improved access to electricity	EE1.1	EE1.13	KPA 1: BASIC SERVICE DELIVERY	12	Percentage of valid customer applications for new electricity connections processed in terms of municipal service standards	Quarterly	System and Data	The Municipality is currently unable to meet the reporting requirements for this KPI due to internal challenges. At present, only data relating to domestic applications is readily available, while there is no adequate record-keeping system in place for business applications. The Directorate will utilise the first two quarters of the 2026/27 financial year to address these gaps and strengthen data management processes, with a view to ensuring that the KPI can be incorporated during the mid-term adjustment process.	1. Revise the Standard Operating Procedure (SOP) accordingly. 2. Align recordkeeping practices with the Time Identifier (TID) system and the updated SOP. 3. Ensure that reporting is undertaken at directorate level. 4. Commission an audit of performance information to verify data accuracy and reliability. 5. Incorporate the KPI into the 2027/28 SDBIP.	By 30 June 2027	N/A	ELECTRICITY AND ENERGY

NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.

MFMA C88 OUTCOME	IDP MFMA C88 REF / MSA REG REF	SDBIP MFMA C88 REF / MSA REG REF	KEY PERFORMANCE AREA (KPA)	KPI NO	KEY PERFORMANCE INDICATOR	PRESCRIBED FREQUENCY OF REPORTING	CHALLENGE	STATUS QUO / BASELINE (2025/26 FINANCIAL YEAR)	ACTION PLAN STEPS TO BE UNDERTAKEN TO PROVIDE DATA / REPORT AGAINST KPI	ESTIMATED DATE WHEN DATA WILL BECOME AVAILABLE / WHEN KPI WILL BE INCLUDED IN SDBIP	WHAT RESOURCES OR SUPPORT IS REQUIRED TO ENSURE THAT DATA WILL BECOME AVAILABLE (IF BUDGET, PROVIDE ESTIMATE)	REPORTING DIRECTORATE / OFFICE
TR 4. Improved satisfaction with public transport services	N/A	TR4.21	KPA 1: BASIC SERVICE DELIVERY	13	Percentage of municipal bus services 'on time'	Quarterly	System and Data	There is currently no appointed service provider in place to maintain the configuration of the IPTS Operating Monitoring System (OMS). Phase 2 of the OMS project was initially advertised in November 2023; however, the process was cancelled due to the receipt of no responsive or suitable bids from service providers. The tender therefore had to be re-advertised. The project was subsequently re-advertised during the second quarter of the 2025/26 financial year. However, delays in budget confirmation prevented the process from proceeding to the appointment stage. In addition, the National Department of Transport has indicated that specific approval must first be obtained before the Municipality can proceed with the tender process. To address these delays, it was recommended to the Budget and Treasury Office that mechanisms be introduced to ensure the timely conclusion of performance agreements and Service Level Agreements (SLAs), including clear commitments to provide approval or input on budget-related matters within at least three working days. During the third quarter, the tender specifications were submitted to the Bid Specification Committee (BSC); however, the item was referred back to the Directorate for further refinement of the tender documentation. The Municipality will continue to follow all applicable supply chain management processes in order to finalise the tender. It is anticipated that the appointment of a service provider will be concluded during the fourth quarter of the 2025/26 financial year. This will enable the configuration of the OMS to commence in the first quarter of the 2026/27 financial year.	1. Advertise a tender to procure the services of a suitably qualified service provider to maintain and configure the IPTS Operating Monitoring System (OMS). 2. Appoint the service provider through the applicable Supply Chain Management (SCM) processes. 3. Configure the IPTS Operating Monitoring System (OMS) in line with operational requirements. 4. Develop the supporting Standard Operating Procedure (SOP) for system use and maintenance. 5. Align recordkeeping processes with the Time Identifier (TID) system and the approved SOP. Ensure that reporting is undertaken at directorate level in accordance with established reporting structures. 6. Commission an audit of performance information to verify the accuracy and reliability of reported data. Incorporate the KPI into the 2027/28 SDBIP.	It should be noted that all tender processes have been placed on hold following an instruction from the National Department of Transport that no further tender processes relating to IPTS operations may proceed. Implementation timelines will be confirmed once approval to proceed has been received from National Treasury.	INFRASTRUCTURE AND ENGINEERING	
GG2. Improved municipal responsiveness	GG3.2	GG2.31	KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	14	Percentage of official complaints responded to through the municipal complaint management system	Quarterly	System and Budget	The Municipality does not currently have a fully functional integrated Customer Care and Complaints Management System in place that complies with all prescribed audit requirements. In addition, the Municipality currently utilises multiple complaints management systems across various departments, which limits the ability to centralise data and report comprehensively against this KPI. As a result, the Municipality is unable to report on this KPI until such systems have been integrated and centralised in accordance with MFMA Circular 88 and the TID reporting requirements. During the 2025/26 financial year, a stakeholder engagement process was initiated to commence the unpacking of the following key actions: 1. Corporate Services to facilitate the upgrading of the EDAMS system; 2. Corporate Services to undertake a work-study to determine the required resources for the establishment and operation of a centralised call centre system; and 3. Corporate Services to facilitate the development and approval of the organisational structure for a centralised Customer Care and Complaints Management Unit. Upon completion of these processes, the Municipality will be in a better position to implement a consolidated system and report accurately against this KPI. Given the time required to complete the above processes, it is anticipated that reporting against this KPI will only commence from the 2027/28 financial year onwards.	1. Conduct a work study to determine the required resources for the establishment and operation of an Integrated Centralised Call Centre System. 2. Facilitate the development and approval of the organisational structure for an Integrated Centralised Customer Care and Complaints Management Unit. 3. Develop and present a costed implementation plan to EXCO for consideration and approval. 4. Secure the necessary budget allocation for implementation of the system. Incorporate the KPI into the 2026/27 SDBIP.	The deployment of COGTA officials in terms of Section 154 is intended to support the Municipality in addressing Supply Chain Management (SCM), governance, capacity, and audit-related challenges. In this regard, the establishment of an integrated complaints management system has been identified as a high-risk area and will receive focused attention from the Office of the City Manager for the remainder of the financial year.	CORPORATE SERVICES	

NOTE: The following output indicators were included in the 2026/27 SDBIP as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets could be set due to either budget related challenges and / or system and reporting related challenges. The Municipality will, however, report on these indicators to National Treasury on a quarterly / bi-annual / annual basis.

TR 6. Improved quality of municipal road network	TR6.2	TR 6.21	KPA 1: BASIC SERVICE DELIVERY	15	Percentage of reported pothole complaints resolved within standard municipal response time	Quarterly	System and Data	The Municipality does not currently have a fully functional integrated Customer Care and Complaints Management System in place that complies with all prescribed audit requirements for recording reported pothole complaints and tracking responses within the standard municipal response time. In order to ensure the reliability and accuracy of information relating to this KPI, the Municipality has requested Internal Audit to conduct a systems audit of the relevant complaints management system to verify and confirm the reported outcomes. It should further be noted that performance against KPIs is monitored through the performance scorecard of the Acting Executive Director: Infrastructure and Engineering (I&E).	1. Ensure that reporting is undertaken at directorate level. 2. Commission an audit of the reporting system and data integrity, which will be undertaken during the 2026/27 financial year. 3. Address and rectify any gaps identified through the audit process and ongoing quarterly monitoring. 4. Incorporate the KPI into the 2027/28 SDBIP.	The deployment of COGTA officials in terms of Section 154 is intended to support the Municipality in addressing Supply Chain Management (SCM), governance, capacity, and audit-related challenges. In this regard, the establishment of an integrated complaints management system has been identified as a high-risk area and will receive focused attention from the Office of the City Manager for the remainder of the financial year.		INFRASTRUCTURE AND ENGINEERING
WS3. Improved quality of water and sanitation services	WS3.1	WS3.11	KPA 1: BASIC SERVICE DELIVERY	16	Percentage of callouts responded to within 24 hours (sanitation/wastewater)	Quarterly	System and Data	The Municipality does not currently have a fully functional integrated Customer Care and Complaints Management System in place that complies with all prescribed audit requirements for recording reported callouts responded to within 24 hours (sanitation/wastewater) and tracking responses within the standard municipal response time. In order to ensure the reliability and accuracy of information relating to this KPI, the Municipality has requested Internal Audit to conduct a systems audit of the relevant complaints management system to verify and confirm the reported outcomes. It should further be noted that performance against KPIs is monitored through the performance scorecard of the Acting Executive Director: Infrastructure and Engineering (I&E).	1. Ensure that reporting is undertaken at directorate level. 2. Commission an audit of the reporting system and data integrity, which will be undertaken during the 2026/27 financial year. 3. Address and rectify any gaps identified through the audit process and ongoing quarterly monitoring. 4. Incorporate the KPI into the 2027/28 SDBIP.	The deployment of COGTA officials in terms of Section 154 is intended to support the Municipality in addressing Supply Chain Management (SCM), governance, capacity, and audit-related challenges. In this regard, the establishment of an integrated complaints management system has been identified as a high-risk area and will receive focused attention from the Office of the City Manager for the remainder of the financial year.		INFRASTRUCTURE AND ENGINEERING
WS3. Improved quality of water and sanitation services	WS3.1	WS3.21	KPA 1: BASIC SERVICE DELIVERY	17	Percentage of callouts responded to within 48 hours (water)	Quarterly	System and Data	The Municipality does not currently have a fully functional integrated Customer Care and Complaints Management System in place that complies with all prescribed audit requirements for recording reported callouts responded to within 48 hours (water)and tracking responses within the standard municipal response time. In order to ensure the reliability and accuracy of information relating to this KPI, the Municipality has requested Internal Audit to conduct a systems audit of the relevant complaints management system to verify and confirm the reported outcomes. It should further be noted that performance against KPIs is monitored through the performance scorecard of the Acting Executive Director: Infrastructure and Engineering (I&E).	1. Ensure that reporting is undertaken at directorate level. 2. Commission an audit of the reporting system and data integrity, which will be undertaken during the 2026/27 financial year. 3. Address and rectify any gaps identified through the audit process and ongoing quarterly monitoring. 4. Incorporate the KPI into the 2027/28 SDBIP.	The deployment of COGTA officials in terms of Section 154 is intended to support the Municipality in addressing Supply Chain Management (SCM), governance, capacity, and audit-related challenges. In this regard, the establishment of an integrated complaints management system has been identified as a high-risk area and will receive focused attention from the Office of the City Manager for the remainder of the financial year. 8. COMPLIANCE INDICATORS AND QUESTIONS (CIRCULAR 88)						
NOTE: The following compliance indicators and questions were included in the 2026/27 SDBIP for planning and reporting purposes as prescribed by MFMA Circular 88. However, these indicators do not form part of the main institutional scorecard, since no targets are required to be set in terms of the Circular.						
INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
COMPLIANCE INDICATORS (CIRCULAR 88)						
1	C1 (GG)	Number of signed performance agreements by the MM and section 56 managers:	This is the count of the total number of signed performance agreements by the municipal manager (section 57) and section 56 managers. A performance agreement is a written contract that establishes the expectations and accountability for meeting a set standard of execution excellence, and the consequences for not meeting them. Two or more parties agree on the actions the performer will execute and agree on the expected results from executing those actions. A municipal manager (MM) is appointed by council. He is the link between the council and the administration, of which he is the head. He has to account for the municipality's income and expenditure, assets and other obligations such as proper adherence to all legislation applicable to municipalities. A Section 56 manager is a manager employed under the terms of Section 56 of the Local Government: Municipal Systems Act, 2000. They are directly accountable to the municipal manager; or an acting manager directly accountable to the municipal manager under circumstances and for a period as prescribed	3	Quarterly	Chief Operating Officer
2	C2 (GG)	Number of Executive Committee or Mayoral Executive meetings held	This is the count of the number of Executive Committee (ExCo) or Mayoral Committee meetings held. A Mayoral committee meeting is a meeting of the committee appointed by the Executive Mayor in terms of section 60 of the Structures Act. An Executive Committee refers to the members of Council elected to serve on an executive structure Chaired by the Mayor.	43	Quarterly	Corporate Services
3	C3 (GG)	Number of Council portfolio committee meetings held	This is the count of the number of Council portfolio committee meetings held. Portfolio committees exercise oversight over a particular municipal department or “portfolio”.	39	Quarterly	Corporate Services
4	C4 (GG)	Number of MPAC meetings held	This is the count of the number of MPAC committee meetings held. A Municipal Public Accounts Committee (MPAC) is one of the Committees in terms of Section 79 of the Local Government: Municipal Structures Act 117 of 1998 to serve as an oversight committee to deal with Oversight Reports on annual reports as per Section 129 (1) of the Municipal Finance Management Act 56 of 2003.	1	Quarterly	Corporate Services
5	C5 (GG)	Number of recognised traditional leaders within your municipal boundary	This is a count of the number of recognised traditional leaders within a municipal boundary. A municipal boundary is defined as a line enclosing the geographical area of jurisdiction of a municipal corporation as delineated by territorial legislation. Recognised leaders refer to those groups which the municipal council officially recognises within the municipal area.	N/A MEC has not recognised any traditional leaders within NMBM	Annual	Corporate Services
6	C6 (GG)	Number of formal (minuted) meetings between the Mayor, Speaker and MM were held to deal with municipal matters	This is a count of the number of formal (minuted) meetings between the Mayor, Speaker, and MM held. A Mayor is the head of the executive of the municipality. A Speaker presides at meetings of the Council and performs the duties and exercises the powers delegated to the Speaker as defined in Section 59 of the Municipal Systems Act. A municipal manager (MM) is the accounting officer of the municipality appointed by council in terms of Section 57 of the Municipal Systems Act.	0	Quarterly	Corporate Services
7	C7 (GG)	Number of formal (minuted) meetings - to which all senior managers were invited- held	This is a count of the number of formal (minuted) meetings to which all senior managers were invited. A senior manager is a municipal manager or acting municipal manager and includes managers directly accountable appointed in terms of section 56 of the Municipal Systems Act.	22	Quarterly	Corporate Services
8	C8 (GG)	Number of councillors completed training	The number of councillors that have received training. A councillor is an individual who is elected to represent their local community and runs their local council. Training can be of any duration, length and need not be formally accredited.	394	Quarterly	Corporate Services
9	C9 (GG)	Number of municipal officials completed training	The number of municipal officials that have received training. A municipal official is a person in the employ of the municipality who has been delegated to perform any function of the municipality or any function for which the municipality is responsible. Training can be of any duration, length and need not be formally accredited.	998	Quarterly	Corporate Services
10	C10 (GG)	Number of work stoppages occurring	The number of work stoppages. Work stoppage refers to the temporary cessation of work as a form of protest and can be initiated by either employees or management. When initiated by employees, work stoppages refer to a single employee or group of employees ceasing work purposefully as a means of protest.	4	Quarterly	Corporate Services
11	C11 (GG)	Number of litigation cases instituted by the municipality	The number of litigation cases instituted by the municipality. Litigation is an action brought in court to enforce a particular right. It involves a series of steps that may lead to a court trial and ultimately a resolution of the matter.	103	Quarterly	Chief Operating Officer
12	C12 (GG)	Number of litigation cases instituted against the municipality	The number of litigation cases instituted against the municipality. Litigation is an action brought in court to enforce a particular right. It involves a series of steps that may lead to a court trial and ultimately a resolution of the matter.	71	Quarterly	Chief Operating Officer
13	C13 (GG)	Number of forensic investigations instituted	The number of forensic investigations instituted. A forensic investigation is the gathering and analysis of all evidence in order to come to a conclusion about a suspect(s). In municipalities, the broad areas of misconduct that are investigated include irregular, wasteful and unauthorised expenditure; procurement irregularities; appointment irregularities; as well as cash theft, fraud, corruption and malicious administrative practices. This refers to newly instituted or on-going investigations.	8	Quarterly	Chief Operating Officer

INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
14	C14 (GG)	Number of forensic investigations concluded	The number of forensic investigations conducted which have concluded. A forensic investigation is the gathering and analysis of all evidence in order to come to a conclusion about a suspect(s). In municipalities, the broad areas of misconduct that are investigated include irregular, wasteful and unauthorised expenditure; procurement irregularities; appointment irregularities; as well as cash theft, fraud, corruption and malicious administrative practices. This refers to investigations concluded.	8	Quarterly	Chief Operating Officer
15	C15 (GG)	Number of days of sick leave taken by employees	The number of days sick leave taken by municipal employees. Sick leave is paid time off from work that workers can use to stay home to address their health needs without losing pay. It differs from paid vacation time or time off work to deal with personal matters, because sick leave is intended for health-related purposes.	69320	Quarterly	Corporate Services
16	C17 (GG)	Number of temporary employees employed	The number of temporary employees employed by the municipality. Temporary employees refer to those employed on a fixed-term contract in addition to the official organisational structure of the municipality.	7304	Quarterly	Corporate Services
17	C18 (GG)	Number of approved demonstrations in the municipal area	The number of approved demonstrations in the municipal area. A demonstration is action by a mass group or collection of groups of people in favour of a political or other cause or people partaking in a protest against a cause of concern; it often consists of walking in a mass march formation and either beginning with or meeting at a designated endpoint, or rally, to hear speakers. An 'approved demonstration' refers to a planned action communicated to the local authority and for which permission has been provided.	16	Quarterly	Corporate Services
18	C19 (GG)	Number of recognised traditional and Khoi-San leaders in attendance (sum of) at all council meetings	The number of recognised traditional and Khoi-San leaders in attendance (sum of) at all council meetings. A traditional leader is any person who, in terms of customary law of the traditional community concerned, holds a traditional leadership position, and is recognised in terms of Traditional Leadership and Governance Framework Act of 2003. A Khoi-San leader is a person recognised as a senior Khoi-San leader or a branch head in terms of section 10 and includes a regent, acting Khoi-San leader and deputy Khoi-San leader. "Recognised leaders" refer to those groups which the municipal council officially recognises within the municipal area. This includes designated representatives of recognised leaders.	N/A MEC has not recognised any traditional leaders within NMBM	Quarterly	Corporate Services
19	C20 (ENV)	Number of permanent environmental health practitioners employed by the municipality	The number of permanent environmental health practitioners employed by the municipality. Environmental health practitioners are dedicated to protecting public health by monitoring and recommending solutions to reduce pollution levels. They use specialized equipment to measure the levels of contaminants in air, water and soil, as well as noise and radiation levels.	30	Quarterly	Public Health
20	C21 (ENV)	Number of approved environmental health practitioner posts in the municipality	The number of permanent environmental health practitioners on the approved municipal organogram.	31	Annual	Public Health
21	C22 (GG)	Number of Council meetings held	The number of council meetings. A council is made up of elected members who approve policies and by-laws for their municipal area. Council meetings are a platform used by councillors to discuss these policies, by-laws and other issues relating to their municipality (e.g. service delivery issues) and to make decisions, through councillor voting, on them. Council meetings are typically open to the general public to attend as well.	18	Quarterly	Corporate Services
22	C23 (GG)	Number of disciplinary cases for misconduct relating to fraud and corruption	The number of disciplinary cases for misconduct related to fraud and corruption active within the municipality. A disciplinary case is an alleged instance of misconduct between an employee and employer whereby the employee should present evidence to respond to the allegations against him/her. Fraud is an intentionally deceptive action designed to provide the perpetrator with an unlawful gain or to deny a right to a victim. Fraud typically occurs with regard to finance. Corruption is a form of dishonesty or criminal offense undertaken by a person entrusted with a position of authority, to acquire illicit benefit or abuse power for one's private gain. Corruption may include many activities including bribery and embezzlement. For this definition, all forms of misconduct relating to dishonesty may be considered within the ambit of the measure.	8	Quarterly	Corporate Services
23	C24 (GG)	Number of council meetings disrupted	The number of council meetings where an unplanned disruption forces the municipal council to abandon the proceedings as originally scheduled and it is unable to conclude the agenda on account of the disruption. "Disruption", in this instance, refers to council meetings where agenda items are not concluded upon, and deferred to the next council meeting. Furthermore, any disruption of council proceedings that results in a suspension of the sitting outside of the planned agenda is also considered a "disruption".	0	Quarterly	Corporate Services
24	C25 (GG)	Number of protests reported	A protest reported refers to an unauthorised protest specifically, and excludes approved demonstrations. An unauthorised protest is a public display of grievance or concern by a group of more than 15 people for which a written approval from the local municipality has not been obtained in advance. Reported incidents means every unique incident of protest which the municipality has received a direct or indirect report for, whether in-progress or after the fact, regardless of whether the protest was aimed at the municipality or not.	0	Quarterly	Corporate Services
25	C26 (GG)	R-value of all tenders awarded	The Cumulative R-value of all tenders awarded. A tender is an invitation to bid for a project. A tender is 'awarded' when the municipality officially selects an individual/company to carry out the work required to complete a project.	Rates based	Quarterly	Budget and Treasury

INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
26	C27 (GG)	Number of all awards made in terms of Section 36 of the MFMA Municipal Supply Chain Management Regulations	The number of tenders awarded in terms of Section 36 of the MFMA and the Municipal Supply Chain Management Regulations. Section 36 of the MFMA and the Municipal Supply Chain Management Regulations of 2005 permits the Accounting Officer to “dispense with the official procurement processes established by the policy and to procure any required goods or services through any convenient process”. This would typically include urgent and emergency cases, single–source goods, and any other cases where it is impractical to follow normal SCM process. In the event of such a decision, the accounting officer is required to report this to the next Council meeting.	342	Quarterly	Budget and Treasury
27	C28 (GG)	R-value of all awards made in terms of Section 36 of the MFMA Municipal Supply Chain Management Regulations	The R-value of all tenders awarded in terms of Section 36 of the MFMA and the Municipal Supply Chain Management Regulations. Section 36 of the MFMA and the Municipal Supply Chain Management Regulations of 2005 permits the Accounting Officer to “dispense with the official procurement processes established by the policy and to procure any required goods or services through any convenient process”. This would typically include urgent and emergency cases, single–source goods, and any other cases where it is impractical to follow normal SCM process. In the event of such a decision, the accounting officer is required to report this to the next Council meeting	R2,092,062,150.00	Quarterly	Budget and Treasury
28	C29 (GG)	Number of approved applications for rezoning a property for commercial purposes	The number of applications for rezoning a property for commercial purposes approved. Rezoning a property for commercial purposes is when the initial classification assigned for the use of a property (e.g. for residential purposes) is adjusted so that it permits business to be conducted on the property.	43	Quarterly	Human Settlements
29	C41 (GG)	Number of approved engineer posts in the municipality	The number of approved engineering posts. An engineer is a person who designs, builds, or maintains engines, machines, or structures. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.	72	Annually	Infrastructure and Engineering; Electricity and Energy
30	C42 (GG)	Number of registered engineers employed in approved posts	The number of registered engineers employed in approved posts. A Registered professional engineer is a person who is registered as a professional engineer with an official organising body. In South Africa, the statutory body for the engineering profession is the Engineering Council of South Africa (ECSA). An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.	11	Quarterly	Infrastructure and Engineering; Electricity and Energy
31	C43 (GG)	Number of engineers employed in approved posts	The number of engineers employed in approved posts. An engineer is a person who designs, builds, or maintains engines, machines, or structures with a formal qualification of a BScEng or BEng. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.	4	Quarterly	Infrastructure and Engineering; Electricity and Energy
32	C44 (GG)	Number of disciplinary cases in the municipality	The number of active disciplinary cases within the municipality. A disciplinary case is a formal procedure initiated in relation to alleged misconduct on the part of an employee which may result in a warning, sanction or dismissal.	205	Quarterly	Corporate Services
33	C45 (GG)	Number of finalised disciplinary cases	The number of finalised disciplinary cases within the municipality. A disciplinary case is a formal procedure initiated in relation to alleged misconduct on the part of an employee which may result in a warning, sanction or dismissal.	106	Quarterly	Corporate Services
34	C46 (ENV)	Number of approved waste management posts in the municipality	The number of approved waste management posts. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.	736	Annual	Public Health
35	C47 (ENV)	Number of waste management posts filled	The number of waste management posts filled in terms of the approved structure. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process.	0	Quarterly	Public Health
36	C52 (HS)	Number of maintained sports facilities	The number of sports facilities maintained by the municipality, inclusive of those owned by the municipality and those maintained by it through agreement for public access. A sports facility is defined by the CSIR Guidelines (2015) as "Active recreation areas including formally provided and maintained playing fields for soccer, rugby, hockey, etc.; playing courts; indoor sports halls and stadiums. May include ablution facilities, seating, parking, tuck shop and club house."	33	Annual	Sports, Recreation, Arts and Culture
37	C53 (HS)	Square meters of maintained public outdoor recreation space	Square meters of municipality maintained active outdoor space intended for recreational purposes refers to land owned by the municipality or maintained for public access through agreement with another party. Public recreation space is defined broadly to mean land and open space available to the public for recreation. Recreation space shall include only space that primarily serves a recreation purpose. Includes: parks, outdoor sports facilities and public open space. Does not include beaches, resorts and nature reserves. Does not include pedestrianised streets and sidewalks, but may include pedestrian walkways with primarily a recreational purpose. Facilities charging an access fee may still be regarded as 'public' provided that no other access criteria are applied (annual membership fee, club affiliations, etc.)	7441900	Annual	Public Health

INDICATOR NO	MIFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
38	C54 (HS)	Number of municipality-owned community halls	The number of municipality-owned community halls. A community hall is defined by the CSIR Guidelines for the Provision of Social Facilities in South African Settlements (2015) as a "Centre or hall for holding public meetings, training, entertainment and other functions and having a variety of facilities such as a kitchen, toilets, storage space, etc. which should be provided at nominal rates for hire, with rentals tied to socio-economic status of area to provide affordable service."	34	Annual	Corporate Services
39	C55(HS)	Number of housing recipients issued with title deeds	The number of registered housing recipients issued with title deeds by the municipality. A title deed is a document that proves legal ownership of a property in South Africa. In this instance, a housing recipient is a registered beneficiary of state-subsidised housing delivered by housing programmes.	1178	Annual	Human Settlements
40	C57 (EE)	Number of registered electricity consumers with an embedded generation system	The number of registered municipal electricity consumers with an embedded generation electricity system. An embedded generation system refers to small scale electricity production localised to a site (or sites) within the electricity distribution network, close to the place of consumption. The indicator tracks the total number of registered consumers able to access electricity through alternative means, beyond municipal supply.	0 (There is no mini grid-based system in the municipal service area)	Quarterly	Electricity and Energy
41	C58 (EE)	Total non-technical electricity losses in MWh (estimate)	Total non-technical electricity losses in MWh. Electricity loss is a measure of unaccounted for energy. Non-technical electricity losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Therefore, by its very nature this indicator will rely on stated assumptions. Municipalities are to generate a measure of non-technical electricity losses in MWh on the basis of their existing procedures in terms of Standard Operating Procedures, while documenting the assumptions or parameters that inform such a measure.	654275.258 MWh	Quarterly	Electricity and Energy
42	C59 (EE)	Number of municipal buildings that consume renewable energy	The number of municipal buildings consuming own renewable electricity or embedded generation. Renewable electricity is understood as renewable own generation and/or embedded generation within municipal buildings themselves. Embedded generation refers to the small-scale production of power connected within the electricity distribution network, located close to the place of consumption. Renewable own generation is electricity generation technology which harnesses a naturally existing energy flux, such as wind, sun, heat, or tides, and converts that flux to electricity for specific own supply, not for sale to customers. Where embedded generation supplies a complex of free-standing structures, all individual structures can be counted as buildings. This is inclusive of buildings leased by the municipality, as well as municipality-owned buildings.	1 (100kw South End Fire Station)	Quarterly	Electricity and Energy
43	C60(Ws)	Total number of sewer connections	The total number of connections to the sewerage system in the municipal area. A connection is any connection through which a consumer gains access to sanitation services and includes an individual consumer installation and a bulk or communal connection (as per the definition of "user connection" in the Revised Compulsory National Water and Sanitation Standards, 2025).	229413	Annually	Infrastructure and Engineering
44	C61 (Ws)	Total number of chemical toilets in operation	The total number of chemical toilets in operation. A chemical toilet collects human excreta in a holding tank and uses chemicals to minimize odours. These toilets are usually, but not always, self-contained and portable. A chemical toilet must be emptied at least twice weekly (per Regulation 7(4)(d) of the Revised Compulsory National Water and Sanitation Standards, 2025).	3546	Quarterly	Infrastructure and Engineering
45	C62 (Ws)	Total number of Ventilation Improved Pit Toilets (VIPs)	A VIP refers to a Ventilation Improve Pit Toilet which meets minimum standards in terms of the ventilation of the pit and toilet structure.	123	Annually	Infrastructure and Engineering
46	C63 (Ws)	Total volume of water delivered by water trucks	The total volume of water (in kilolitres) delivered by water truck to a municipal area. A water truck is a vehicle designed with a water container for storing and transporting water for consumptive purposes.	0 As and when required	Quarterly	Infrastructure and Engineering
47	C64 (TR)	R-value of all direct municipal vehicle operational costs for public transport	The R-value of all direct municipal, and municipally-contracted, vehicle operational costs. Municipal vehicle operational costs refers to the costs off public transport vehicles that vary with vehicle usage, including fuel, tires, maintenance, repairs, and mileage-dependent depreciation costs. This is also inclusive of the staff and overhead operational costs. Municipality-contracted vehicles refer to fleets that are owned by private transport companies, but are operated by municipalities for public transport purposes. Any definitional clarification should be sought from the latest Division of Revenue Act as it relates to 'operational costs'.	R40,210,539.00	Quarterly	Infrastructure and Engineering
48	C65 (TR)	Total number of scheduled public transport access points	The total number of scheduled public transport access points that are the responsibility of municipalities, which include bus and BRT services. Scheduled public transport service is that which provides access to the scheduled public transport services mentioned above, with a minimum service frequency of 30 minutes during the workday morning peak. This measure is inclusive of the total number of schedule public transport access points, not only new access points in a reporting cycle.	125	Quarterly	Infrastructure and Engineering
49	C66 (TR)	Number of passenger trips on scheduled municipal bus services	The number of operationalised passenger trips on scheduled municipal bus services, based on fare collection or trip capture on the system. A trip is a one-way movement from an origin to a destination, to fulfil a purpose or undertake an activity.	801542	Quarterly	Infrastructure and Engineering

INDICATOR NO	MIFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
50	C67 (FD)	Number of paid full-time firefighters employed by the municipality	The number of paid full-time firefighters employed by the municipality. A firefighter is a rescuer extensively trained in firefighting, primarily to extinguish hazardous fires that threaten life, property, and the environment as well as to rescue people and animals from dangerous situations. This could be either permanent or fixed-term employment, on a full-time basis.	94	Quarterly	Safety and Security
51	C69 (FD)	Number of 'displaced persons' to whom the municipality delivered assistance	The number of displaced persons (regardless of their nationality) to whom the municipality delivered assistance within the municipal area. A displaced person is person who was forced to or obliged to leave their home as a result of natural or human-made disasters, conflict, situations of generalised violence or violations of human rights. 'Assistance' in this instance refers to some or all of the following types of assistance: essential food and potable water; basic shelter and housing; appropriate clothing; and essential medical services and sanitation. The origins of displacement, extent and duration does not affect the measure, only the unique number of individuals to which the municipality has provided direct assistance in the reporting period.	412	Quarterly	Safety and Security
52	C71 (LED)	Number of procurement processes where disputes were raised	The number of procurement processes where disputes were raised within the municipality. A municipality typically allows service providers who were unsuccessful in the tender process 14 days to dispute the outcome of their bid. This process usually takes place before the letter of award is issued to the successful bidder.	39	Quarterly	Budget and Treasury
53	C72 (FD)	Date of the last municipal Disaster Management Plan tabled at Council	The date (dd/mm/yyyy) of the last municipal Disaster Management Plan tabled at Council. A Disaster Management Plan is required in terms of Section 53 of the Disaster Management Act of 2002 and should be submitted to the National Disaster Management Centre by all relevant municipal organs of state and municipal entities in terms of the policy framework for disaster management. The tabling is inclusive of all three levels of Disaster Management Plans in terms of the disaster management policy framework.	2 December 2010	Annually	Safety and Security
54	C73 (FD)	Number of structural fires occurring in informal settlements	The indicator measures the number of fires which occurred or originated in an area considered to be an informal settlement by the municipality and affected structures in that area. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires).	877	Quarterly	Safety and Security
55	C74 (FD)	Number of dwellings in informal settlements affected by structural fires (estimate)	The indicator measures the estimated number of dwellings in an area considered to be an informal settlement by the municipality and affected by structural fires. 'Affected' in this context refers to structures which have sustained physical damage as a result of a fire. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires).	603	Quarterly	Safety and Security
56	C75 (FD)	Number of people displaced within the municipal area	The number of people within the municipal area displaced by natural or human-made disasters, conflict, situations of generalised violence or violations of human rights, as documented by the municipality. Please refer to the definition of disaster in terms of the Disaster Management Act. For the purpose of this indicator, a person displaced by conflict, disaster or extreme weather is someone who was forced or obliged to leave their home from within the municipal area as a result of any category of event. It refers to those individuals documented as known to the municipality and does not pre-suppose that any sphere of government is directly providing for these individuals, only that their displacement from within the municipal area is known.	278	Quarterly	Safety and Security / Human Settlements
57	C76 (LED)	Number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders	The number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders, within the municipal area. Digitisation support programme can include: digital infrastructure provision, digital platforms, digital financial services, digital entrepreneurship support and digital skills development. SMME stands for small, medium and micro-enterprises. These businesses range from formally registered, informal and non-VAT registered organisations. Small to medium-sized businesses typically employ over a hundred people and are comparable to the small- and medium-sized enterprises (SME) segment found in developed countries. Micro-enterprises, on the other hand, typically encompass survivalist self-employed persons from the poorest layers of the population. This measures any business who has registered with the municipality to benefit from support for digitisation.	314	Quarterly	Economic Development, Tourism and Agriculture
58	C77 (LED)	B-BBEE Procurement Spend on Empowering Suppliers that are at least 51% black owned based	The B-BBEE Procurement Spend on Empowering Suppliers that are at least 51% black owned based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE.	R368,279,403	Quarterly	Budget and Treasury
59	C78 (LED)	B-BBEE Procurement Spend on Empowering Suppliers that are at least 30% black women owned	The B-BBEE Procurement Spend on Empowering Suppliers that are at least 30% black women owned based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE.	R265,990,875	Quarterly	Budget and Treasury

INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
60	C79 (LED)	B-BBEE Procurement Spend from all Empowering Suppliers based on the B-BBEE Procurement	The B-BBEE Procurement Spend on all Empowering Suppliers based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE.	R611,070,326	Quarterly	Budget and Treasury
61	C80 (LED)	Date of the last Council adopted Development Charges policy	The date of the last Development Charges policy adopted by the municipal council. A 'Development Charge' is also known as a capital contribution, engineering service contribution, bulk infrastructure connection levy or an impact fee (internationally). It is a once-off capital charge to recover the actual cost of external infrastructure required to accommodate the additional impact of a new development on engineering services.	N/A The municipality does not have a Development Charges Policy	Annual	Infrastructure and Engineering
62	C81 (LED)	Number of new business license applications	The number of new business license applications received by the municipality. Business license applications may be required by the municipality as it relates to food provision and other industries. This measures only the 'new' business license applications received by the municipality. By applying for a license as a 'new' business, the indicator measures new formal economic ventures pursued within the municipality. The indicator measures only those 'new' license applications and does not track renewals.	382	Quarterly	Public Health
63	C82 (LED)	Value of Commercial Projects Constructed by adding all of the estimated costs of construction values on building permits	Municipal construction permits require the capturing of estimated costs for construction. This indicator aggregates all of the estimated costs for the construction permits granted by the municipality.	R1,249,310,711.00	Annual	Human Settlements
64	C83 (LED)	Number of building plans approved after first review	The building plan review process is a coordinated process for the review of projects and building plans which generally result in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. Where a building plan of any size, whether commercial or residential, is approved based on one round of municipal review, it is tracked for the purpose of this indicator.	808	Quarterly	Human Settlements
65	C84(LED)	Number of building plans submitted for review	The total number of building plans submitted for review to the municipality. The building plan review process is coordinated process for the review of projects and building plans which, when adjudicated as "approved", generally results in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. This indicator gives a measure of the scale of building plan submissions in total.	4637	Quarterly	Human Settlements
66	C85(LED)	Number of business licenses renewed	The number of business licenses renewed within the municipal area. Business licenses are permits issued by the municipality that allow individuals or companies to conduct business within the municipal area. It is the authorization to operate a business issued by the local government, in line with local by-laws and provisions.	86	Quarterly	Public Health
67	C86 (LED)	Number of households in the municipal area registered as indigent	This refers to the number of households on the municipality's indigent register. An indigent register is a municipality administered list of households in need of economic relief/assistance. Those registered as indigent usually receive rates relief and the allocation of free basic services, including at least 6kl o free water per registered household per month and 50 kWh of electricity per registered household per month. Some municipalities provide more support than the above.	69 565	Quarterly	Budget and Treasury
68	C87 (LED)	Number of firms in the formal sector split across 1-digit SIC codes	The number of formal business firms that are split across 1-digit SIC codes within the municipal area for the quarter. The Standard Industrial Classification (SIC) is a system for classifying industries by a four-digit code. It is used by government agencies to classify industry areas. In South Africa SIC codes 1 - 3 encompass the Agriculture, forestry and fishing sector; while SIC codes 5 -9 encompass the mining and quarrying sector.	N/A	Annual	Economic Development, Tourism and Agriculture
69	C88 (LED)	Number of businesses registered with the South African Revenue Service within the municipal area	The number of businesses registered within the municipal area with SARS in terms of having submitted IT77 forms. This will include all businesses known to SARS with a physical address listed within the municipal area.	N/A	Annual	Budget and Treasury
70	C89 (GG)	Number of meetings of the Executive or Mayoral Committee postponed due to lack of quorum	This is the count of the number of Executive Committee (ExCo) or Mayoral Committee meetings that were not held owing to a lack of quorum. A Mayoral committee meeting is a meeting of the committee appointed by the Executive Mayor in terms of section 60 of the Structures Act. An Executive Committee refers to the members of Council elected to serve on an executive structure Chaired by the Mayor. This refers to meetings that were unable to proceed due to lack of attendance.	0	Quarterly	Corporate Services
71	C90 (ENV)	Date of the last Climate Change Needs and Response Assessment published in the Gazette	A Climate Change Needs and Response Assessment is a systematic diagnostic exercise undertaken by the municipality at least once every five years to determine the risks, vulnerabilities, and Climate Change response options in place or available to the municipality. This indicator measures the date when the assessment finds expression in the Gazette, as specified in section 17(1)(c) of the Climate Change Act.	Not available	Annual	Public Health
72	C91 (ENV)	Date of the last Climate Change Response Implementation Plan adopted as a component of the municipal IDP	A Climate Change Needs and Response Implementation Plan sets out the strategies and responses that the municipality will be pursuing over the medium-term. This indicator measures the date when a response implementation plan is adopted as a component of the municipal IDP.	Not available	Annual	Public Health

INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
73	C92 (GG)	Number of agenda items deferred to the next council meeting	The number of agenda items that have been deferred to the next council meeting because the council has failed to reach a quorum or withheld decisions on those items. Where multiple council meetings have been held, this is the sum total of those items deferred. This does not refer to agenda items referred to other structures, only items for which no decision or action is taken.	1	Quarterly	Corporate Services
74	C93 (FM)	Number of awards made in terms of SCM Reg 32	This indicator measures the number of awards made by means of "piggy back" contracts. MFMA SCM Reg 32 refers to procurement of goods and services secured by other organs of state.	NT Exemption	Quarterly	Budget and Treasury
75	C94 (FM)	Number of requests approved for deviation from approved procurement plan	The indicator measures the number of requests approved for deviation from the municipality's approved procurement plan. The indicator also provides the municipality with data on the reasons why the municipality has deviated from the approved procurement plan.	NT Exemption	Quarterly	Budget and Treasury
76	C95 (FM)	Number of residential properties in the billing system	The indicator measures the number of unique properties zoned for residential purposes by the municipality that reflects on the billing system of the municipality. This includes residential properties that are zero-rated.	244170	Annual	Budget and Treasury
77	C96 (FM)	Number of non-residential properties in the billing system	The indicator measures the number of unique properties zoned for non-residential purposes by the municipality that reflects on the billing system of the municipality. This includes non-residential properties that are zero-rated.	29661	Annual	Budget and Treasury
78	C97 (FM)	Number of properties in the valuation roll	The indicator measures the number of unique properties reflected on the municipal valuation roll. This includes residential properties that are zero-rated and draws from Supplementary valuation rolls in years between official valuations.	273831	Annual	Budget and Treasury
79	C98 (LED)	Number of building plan applications approved	The number of building plans approved by the municipality. The building plan review process is a coordinated process for the review of projects and building plans which, when adjudicated as "approved", generally results in the issuance of a building permit. An approved building plan application excludes those applications that receive an "amendment letter" or "date of first refusal.	2431	Quarterly	Human Settlements
80	C99 (EE)	Number of electricity connection applications received	The number of new electricity connection applications received by the municipality. This measures only the new applications received by the municipality, regardless of whether they are 'valid' or complete.	188	Quarterly	Electricity and Energy
81	C100 (GG)	Quarterly salary bill of suspended officials	The sum of the salary bill for all officials suspended from work or employment for the municipality for misconduct during the reporting period. The salary bill is inclusive of the associated benefits.	R2,049,280.46	Quarterly	Corporate Services
82	C101(GG)	Number of dismissals for fraud and corruption	The number of dismissals for fraud and corruption reported by the municipality. Corruption is defined broadly in the Prevention and Combating of Corrupt Activities Act 12 of 2004 in Chapter 2(s3) and any criminal offence that may fall within the ambit of this definition is included for the purposes of this indicator.	0	Annual	Corporate Services
82	C102(ENV)	Number of incidents of improper disposal of medical waste responded to by the municipality	The indicator measures the number of incidents reported to the municipality of the improper disposal of medical waste. Where an incident has been reported, it is understood that a municipality would respond to the report, diagnose the situation and undertake an appropriate course of action to remedy the situation as per the appropriate protocols.	0	Quarterly	Public Health

INDICATOR NO	MFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
84	C103(ENV)	Number of notifiable medical condition investigations following the prescribed protocols	The indicator measures the number of incidents reported to the municipality where notifiable medical conditions are investigated. A Notifiable Medical Condition is defined in terms of the National Health Act: Regulations relating to the surveillance and the control of notifiable medical conditions as- a medical condition, disease or infection of public health importance that is classified as notifiable in terms of regulation 12, Annexure A, Tables 1-4. They may pose significant public health risks that can result in disease outbreaks or epidemics with high case fatality rates both nationally and internationally. And prescribed protocols apply on the basis of the Notifiable Medical Condition and should involve Environmental Health Practitioners as per protocol. Any investigation should conclude with a course of action related to the prevention or mitigation of the risk of such incidence in the future, subject to applicable protocols.	11	Quarterly	Public Health
85	C104(ENV)	Number of foodborne disease outbreak investigations following the prescribed protocols	The indicator measures the number of incidents reported to the municipality where foodborne diseases are investigated according to the prescribed protocols, involving an Environmental Health Practitioner. A foodborne disease outbreak is defined as any food poisoning incident involving two or more individuals that are epidemiologically linked to a common food/beverage source (also referred to as foodborne illness or food poisoning). Any investigation should conclude with a course of action related to the prevention or mitigation of the risk of such incidence in the future, subject to applicable protocols.	35	Quarterly	Public Health
86	C105(EF)	Installed capacity of approved embedded generators on the municipal distribution network	The total capacity of the embedded generation installations in the municipal distribution network in mega-volt ampere	New KPI introduced in the 2025/26 financial year		Electricity and Energy
87	C106(HS)	Number of KMs of additional stormwater drains installed	This indicator measures the length of stormwater drains in kilometres that have been installed by the municipality in addition to the previously existing infrastructure, over the reporting period. Stormwater is rainwater or melted snow that runs off streets, lawns and other sites. The indicator tracks the length of drainage installed by the municipality as part of stormwater management.	New KPI introduced in the 2026/27 financial year		Infrastructure and Engineering
88	C107(HS)	Number of additional high mast lights installed	A high mast light refers to a tall lighting pole, typically in excess of 15 meters, to illuminate a large, outdoor area. The indicator tracks the number of additional high mast lights installed by the municipality.	New KPI introduced in the 2026/27 financial year		Electricity and Energy
89	C108(HS)	Number of additional street lights installed	A street light refers to a lighting pole, typically between 4 to 12 meters, used to illuminate a public area. The indicator tracks the number of additional street lights installed by the municipality.	New KPI introduced in the 2026/27 financial year	Annual	Electricity and Energy
COMPLIANCE QUESTIONS (CIRCULAR 88)						
90	Q4.	What are the main causes of work stoppage in the past quarter by type of stoppage?		Unsatisfactory work conduct by Electricity and Energy officials.	Quarterly	Corporate Services
91	Q6.	When was the last scientifically representative community feedback survey undertaken in the municipality?		Currently in progress (award was made by BAC on 5 July 2024)	Quarterly	Chief Operating Officer
92	Q7.	What are the biggest causes of complaints or dissatisfaction from the community feedback survey? Indicate the top four issues in order of priority.		1. Parks 2. Governance 3. Graveyards 4. Municipal Services (2022/23 survey)	Quarterly	Chief Operating Officer
93	Q19.	Is the municipal supplier database aligned with the Central Supplier Database?		Yes	Quarterly	Budget and Treasury

INDICATOR NO	MIFMA C88 REF	COMPLIANCE INDICATOR / QUESTION	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
94	Q20:	What is the number of steps a business must comply with when applying for a construction permit before final document is received?		20	Quarterly	Human Settlements
95	Q24:	Is the MPAC functional? List the reasons why if the answer is not 'Yes'.		Yes	Quarterly	Corporate Services
96	Q25:	Has a report by the Executive Committee on all decisions it has taken been submitted to Council this financial year?		No	Quarterly	Corporate Services

9. COMPLIANCE INDICATORS (MSA REGULATION 10 AND MUNICIPAL ENTITY)						
NOTE: The following indicators are included in the 2026/27 SDBIP as prescribed by Regulation 10 of the Municipal Systems Act (MSA) and are used to monitor the performance of the Municipal Entity. These indicators do not form part of the main institutional scorecard; however, they will be reported on and cascaded into Senior Managers' 2026/27 performance agreements.						
INDICATOR NO	MSA REG	COMPLIANCE INDICATOR	INDICATOR DEFINITION	BASELINE (ANNUAL PERFORMANCE OF 2024/25 ESTIMATED)	PRESCRIBED FREQUENCY OF REPORTING	REPORTING DIRECTORATE / OFFICE
1	Reg10(e)	Number of people from employment equity target groups employed in the three highest levels of management in compliance with the municipal approved employment equity plan	The indicator measures the number of positions filled from employment equity target groups in the three highest levels of management (City Manager, Section 56 Managers and Strategic Skilled Level Managers) in compliance with the Municipality's approved Employment Equity Plan. Employment equity requires the institution to engage in proactive employment practices to increase the representation of certain under represented groups; promote the constitutional right of equality and the exercise of true democracy; eliminate unfair discrimination in employment; ensure the implementation of employment equity to redress the effects of discrimination; achieve a diverse workforce broadly representative of our people.	Target not met Adverts placed and selection processes commence for (2 Section 56 Managers - Executive Director: EE Executive Director: I&E; 4 (Senior Director: Fire (SS); Senior Design and Implementation (I&E); Commissioner: Metro Police (SS); Director: Disaster Management (SS);	Quarterly	Corporate Services
2	Reg10(b)	Percentage of households earning less than R4620 per month with access to free basic services	The indicator measures the capability of the municipality to provide free basic services to low income households who qualify in terms of the Municipality's policy requirements. The intention of the Key Performance Indicator is to measure the extent of those who should receive free services and are actually assisted by the municipality against all of those households who qualify to receive free basic services.	100%	Quarterly	Budget and Treasury
3	Reg10(f)	Percentage of the Municipality's budget actually spent on implementing its Workplace Skills Plan	The indicator measures the amount spent on training initiatives in the Municipality through the implementation of its Workplace Skills Plan. The indicator sets the standard to ensure that all staff undergo training initiatives as required for the performance of their duties.	0.062%	Quarterly	Budget and Treasury
4	N/A	Percentage achievement of the Mandela Bay Development Agency's 2026/27 Key Performance Indicators as reflected in / annexed to MBDA's Business Plan	The indicator measures Mandela Bay Development Agency's achievement against the key projects outlined in the Mandela Bay Development Agency's business plan as approved by Council.	81%	Quarterly	Mandela Bay Development Agency

10. REVENUE AND EXPENDITURE PROJECTIONS

The revenue and expenditure projections provide monthly forecasts of the Municipality's anticipated income and expenditure for the financial year. Actual revenue collected and expenditure incurred against the approved Budget will be monitored and reported on a monthly basis in accordance with Section 71 of the Municipal Finance Management Act (MFMA), as well as against the quarterly targets contained in the SDBIP scorecard.

These projections serve as an important financial management and monitoring tool, enabling the Municipality to track performance against planned revenue and expenditure levels throughout the year. Regular monitoring facilitates the early identification of variances and emerging trends, thereby enabling management to implement appropriate corrective actions and interventions timeously to ensure the achievement of the Municipality's financial and service delivery objectives.

2026/27 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

ACTING CITY MANAGER QUALITY CERTIFICATE

I, Advocate L. Ngoqo, Acting City Manager of Nelson Mandela Bay Municipality, hereby certify that the 2026/27 Service Delivery and Budget Implementation Plan (SDBIP) has been prepared in accordance with the provisions of the Local Government: Municipal Finance Management Act, 56 of 2003 (MFMA), and all applicable regulations, guidelines, and circulars issued thereunder.

I further confirm that the SDBIP is aligned with the approved Integrated Development Plan (IDP) and Budget of the Municipality and provides a framework for the implementation, monitoring, and reporting of service delivery and budget performance during the 2026/27 financial year.

ADV L NGOQO

ACTING CITY MANAGER OF THE NELSON MANDELA BAY MUNICIPALITY

EXECUTIVE MAYOR QUALITY CERTIFICATE

I, Councillor Babalwa Lobishe, Executive Mayor of Nelson Mandela Bay Municipality, hereby approve the 2026/27 Service Delivery and Budget Implementation Plan (SDBIP) in terms of Section 53(1)(c)(ii) of the Local Government: Municipal Finance Management Act, 56 of 2003 (MFMA).

I am satisfied that the SDBIP is aligned with the approved Integrated Development Plan (IDP) and Budget of the Municipality and that it provides a credible framework for the implementation, monitoring, and reporting of the Municipality's service delivery commitments and financial performance during the 2026/27 financial year.

The SDBIP serves as a key management and accountability instrument through which progress towards the achievement of the Municipality's strategic objectives, service delivery priorities, and budget implementation targets will be monitored and evaluated throughout the financial year.

COUNCILLOR BABALWA LOBISHE
